Parrot-Themed Rope Climbing Frame

Materials & Construction

Frame: Ø114.3 mm steel tube, hot-dip galvanised and powder-coated
Ropes: Ø16 mm polypropylene rope with steel core
Connectors: Aluminium and high-grade plastic
Chains: Calibrated galvanised technical chains
Panels: Coloured HDPE

Free-fall height is 2.30 m, so impact-absorbing surfacing is required across the impact area: EN 1177-tested synthetic surfacing rated to at least 2.30 m, or loose-fill bark, woodchip or sand at 400 mm depth. We'll recommend the right finish for your site.

Images are computer visualisations; the installed product will look similar. Colours may vary from those shown.

How to Use

Rope nets

Children climb through and across the three-dimensional rope nets inside the parrot frame.

Benefits:

Builds grip, balance and strength.

Climbing routes

Nets at different angles give several ways up, across and down.

Benefits:

Develops route planning and coordination.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check rope tension, connectors and fixings, and keep loose-fill surfacing topped up. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A parrot-shaped steel tube frame filled with three-dimensional rope nets. Children climb in, across and through it, and the bold outline makes it easy to spot across a park or playground.

- Distinctive parrot outline in heavy Ø114 mm galvanised steel tube
- Steel-core rope nets with calibrated galvanised chains
- Certified to BS EN 1176-1:2017+A1:2024
- Designed, supplied and installed by Morti Sport & Play's own teams
