Bee-Themed Play Tower with Slide

Materials & Construction

Frame: 70 × 70 mm steel posts, zinc-primed and powder-coated; stainless steel and powder-coated steel profiles and tubes
Slide: AISI 304 stainless steel sheet
Panels & deck: Coloured HDPE panels; anti-slip film-faced plywood deck
Climbing: Climbing holds and grips in durable plastic; Ø16 mm steel-reinforced polypropylene rope
Connectors & fixings: Aluminium and high-grade plastic connectors; all bolts under plastic caps

Free-fall height is 1.20 m, so impact-absorbing surfacing is required across the impact area: EN 1177-tested synthetic surfacing rated to at least 1.20 m, or loose-fill bark, woodchip or sand at 300 mm depth. We'll recommend the right finish for your site.

Images are computer visualisations; the installed product will look similar. Colours may vary from those shown.

How to Use

Climbing up

Children climb the wall holds or the rope ladder to reach the platform inside the bee.

Benefits:

Builds grip, strength and confidence.

Sliding down

From the platform, children slide down the stainless steel slide.

Benefits:

Adds speed and fun to the circuit.

Crawl-through

The round opening in the bee's body gives a crawl-through and peek-out space.

Benefits:

Encourages imaginative and social play.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check rope tension, connectors and fixings, and keep loose-fill surfacing topped up. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A bee-shaped play tower with a stainless steel slide, a climbing wall and a rope ladder. The bright character panels make it a natural focal point for younger children's play areas.

- A strong visual focal point for nurseries, infant schools and parks
- Stainless steel slide and coloured HDPE panels for long outdoor life
- Certified to BS EN 1176-1; free-fall height 1.2 m
- Designed, supplied and installed by Morti Sport & Play's own teams
