Robinia Cradle Swing

Materials & Construction

Posts: Two Robinia hardwood posts, set 0.9 m into the ground

Seat: Toddler cradle seat on chains

With a free-fall height of 0.8 m, BS EN 1176-1 allows grass or turf in the swing's impact area, or any EN 1177 impact-absorbing surface. We'll recommend the right finish for your site.

Images are computer visualisations; the installed product will look similar. Colours may vary from those shown.

How to Use

Swing

A young child sits secure in the cradle seat while an adult pushes the swing.

Benefits:

Supports balance, sensory development and calm, rhythmic movement.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check ropes, chains, swing hangers, seats and slide fixings for wear, fixings for tightness and timber for splits around fixings. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A simple Robinia swing with one toddler cradle seat, for children from age 1. Its 12 m^2 safety zone suits nurseries, early years settings and toddler areas, and at 0.8 m free-fall height it can go on grass.

- Secure cradle seat for children from age 1
- Compact 12 m^2 safety zone
- Robinia hardwood: naturally durable, no preservatives needed
- Designed, supplied and installed by Morti Sport & Play's own teams
