Robinia Pirate Boat Play Structure

Materials & Construction

Structure: Robinia hardwood posts, about Ø18 cm, with no sharp edges; set 0.6–1.0 m into the ground
Decks & side panels: Two decks at 0.55 m and 0.90 m; Robinia timber with anti-slip, waterproof HPL decking
Slide: Stainless steel
Sails, flags & coloured parts: HPL; ship's wheel/rudder in HDPE; telescope in stainless steel and HDPE
Ropes & ladders: Steel-core ropes in polypropylene braid; rope ladder with synthetic rungs; calibrated stainless steel chains
Fixings: Stainless steel screws or screws with plastic caps

Free-fall height is 0.9 m, so BS EN 1176-1 allows turf or topsoil under it. Bark, woodchip, sand or an attested synthetic surface such as wetpour can be used instead. We quote surfacing alongside the equipment.

Images are computer visualisations; the installed product will look similar. Colours may vary from those shown.

How to Use

Main deck with slide

Children climb up to the main deck at 0.9 m and slide down the stainless steel slide, or steer from the ship's wheel and look out through the telescope under the main mast.

Benefits:

Builds climbing confidence and coordination, and sets up role play and storytelling.

Lower deck & climbing

A lower deck at 0.55 m with a rope net and rope ladder, stepping logs and a V-shaped log crossing between the two masts.

Benefits:

Develops balance, grip strength and route-finding, with space for several children to play at once.

Inspection & Maintenance

Routine visual check weekly (daily on busy sites), an operational check every 1–3 months and a main inspection once a year. Check ropes, nets and chains for wear, the slide and decks for damage, and posts and fixings for movement; replace worn parts with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A pirate ship in natural Robinia that turns a play area into a story: two decks, a slide, masts with sails and flags, and climbing and balancing between them for up to 20 children.

- Free-fall height of 0.9 m, so it can go on grass
- Takes up to 20 children from age 3
- Certified to BS EN 1176-1:2017+A1:2023
- Designed, supplied and installed by Morti Sport & Play's own teams
