Low-Level Timber Climbing Frame

Materials & Construction

Posts: Laminated, impregnated and double-coated knot-free pine, 90 x 90 mm, with polypropylene top caps
Post anchors: Hot-dip galvanised steel feet keep the timber clear of the ground to prevent rot
Moving elements: Weather-resistant HDPE
Rope ladders: Steel-core rope with synthetic rungs
Chains: Calibrated stainless steel chains to prevent finger entrapment
Ropes: Steel-core rope with polypropylene braid; plastic, stainless steel or aluminium connectors
Bars & fittings: Stainless steel
Fixings: Cap-covered or stainless steel screws; polypropylene post caps
Foundations: Concrete footings 60–80 cm deep on level ground

Safety Surfacing

Free-fall height is 0.99 m, so grass or turf can be used, as well as impact-absorbing surfacing to EN 1177. We'll recommend the right finish for your site.

Images are computer visualisations; the installed product will look similar. Colours may vary from those shown. Alternative colour options are available.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year, in line with BS EN 1176-7. Check ropes, connectors and fixings for wear and keep loose-fill surfacing topped up. Morti Sport & Play offers annual inspection and maintenance.

Why Choose This Product

- Designed for ages 1–8, close to the ground
- Free-fall height 0.99 m — can sit on grass
- Timber posts on galvanised anchors to resist rot
- Certified to BS EN 1176-1; installed by our own teams

Designed, supplied and installed by Morti Sport & Play's own teams, with a BS EN 1176 handover pack on completion. Ask us for a site visit, layout drawing and surfacing quote.
