Rope Tunnel & Twin Climbing Net Trail

Materials & Construction

Frame: 100 × 100 mm steel posts, hot-dip galvanised and powder-coated (or powder-galvanised and powder-coated)
Spinning element: Stainless steel
Platforms: Anti-slip, waterproof HPL
Tunnel: Steel-core rope on stainless steel rims
Ropes: Steel-core ropes in polypropylene braid with plastic, stainless steel or aluminium connectors
Rungs: Synthetic
Chains: Calibrated stainless steel chains to prevent finger entrapment
Fixings: Stainless steel screws or screws under plastic caps; polypropylene end caps

Free-fall height is 2.00 m, so impact-absorbing surfacing is required across the impact area: EN 1177-tested synthetic surfacing rated to at least 2.00 m, or loose-fill bark, woodchip or sand at 300 mm depth. We'll recommend the right finish for your site.

How to Use

Net climbers

Children climb the rope nets on the two triangular frames.

Benefits:

Builds grip and upper-body strength.

Rope tunnel

Between the climbers, children crawl through the suspended rope tunnel.

Benefits:

Builds core strength and coordination.

Spinning seats

A stainless steel spinning seat at each end adds movement.

Benefits:

Builds balance and core control.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check rope tension, connectors and fixings, and keep loose-fill surfacing topped up. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A linear rope trail: two triangular net climbers joined by a suspended rope tunnel, with a spinning seat at each end. Seven activities in a 9.25 m run, with room for 15 users.

- Seven activities in one straight run — easy to fit along a boundary
- Stainless steel spinners and tunnel rims; steel-core rope
- Certified to BS EN 1176-1; ages 4–14
- Designed, supplied and installed by Morti Sport & Play's own teams
