Robinia Horse Spring Rocker

Materials & Construction

Body: Robinia log seat with a shaped timber head and tail, all cut edges rounded to R25 mm. As natural timber, dimensions may vary slightly

Handles & footrests: Grip handles through the head for hands and feet

Details: Rope mane and tail

Spring: Steel coil spring, fixed with an M16 threaded rod, washers and lock nut; bolt holes closed with cover plugs

Foundations: Steel ground anchor set in a foundation

Installation: About 4 hours; total weight 80 kg

The free-fall height is 0.75 m and no impact surfacing is required, so the springer can go on grass or turf (BS EN 1176-1 allows turf up to 1.0 m), or on any EN 1177 surface. We'll recommend the right finish for your site.

How to Use

Horse spring rocker

The child sits astride the log, holds the grip handles on the horse's head, rests their feet on the lower handles and rocks forwards, backwards and side to side.

Benefits:

Rocking builds balance, core strength and coordination; the horse shape and rope mane invite riding games, and the handles give young riders a secure position.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check the spring, grip handles, rope mane and fixings are secure and undamaged, the cover plugs are in place, and the ground around the spring base stays level. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A natural Robinia rocking horse on a single steel spring, with a shaped timber head, rope mane and tail, and grip handles for hands and feet. A classic ride-on for the youngest, from age 1.

- Timeless rocking-horse design sparks imaginative play
- Grip handles for hands and feet give a secure seat
- Free-fall height 0.75 m with no impact surfacing required, so it can go on grass
- Designed, supplied and installed by Morti Sport & Play's own teams
