Standing Spinner

Materials & Construction

Structure: Galvanised and powder-coated steel

Platform: PE plate: soft underfoot and anti-slip; does not get hot in the sun or freeze in winter

Layout: One post with a small rotating platform and a long handle

Certified to BS EN 1176. Free-fall height 0.28 m.

With a free-fall height of 0.28 m, BS EN 1176-1 allows grass or turf within the 3.34 m square safety zone; EN 1177 impact-absorbing surfacing can be used instead.

How to Use

Step on

The child stands on the small round platform and holds the post.

Benefits:

Balance and body awareness.

Spin

Shifting body weight sets the platform turning.

Benefits:

Core strength, coordination and vestibular stimulation.

Take turns

One child rides while others wait and watch.

Benefits:

Turn-taking and social play.

Inspection & Maintenance

Routine visual check weekly (daily on busy sites), an operational check every 1–3 months and a main inspection once a year. Check that the unit turns freely and quietly, that the platform and all fixings are secure and that there is no damage or sharp edges. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A simple standing spinner that fits almost anywhere. One post, one small platform, and a free-fall height of just 0.28 m.

- Only 0.34 m across, with a 3.34 m square safety zone
- Soft, anti-slip PE platform
- Galvanised, powder-coated steel post
- 0.28 m free-fall height — can be installed on grass
- Supply only, or installed by Morti Sport & Play's own teams
