Option 2

Business Application Consulting & Development Team

Hiring a complete development team in-house is often more than you need in the long run and can take time and resources to build in a fashion that meets your timeline and goals.

The ***benefit*** to using us as a turnkey department is you get started faster, with the right people in place who are hyper focused on the initiatives at hand. No need to worry about hiring, benefits and long-term employment in-house. We can deliver transparent project management, top shelf consulting and all the engineering and dev-ops to bring it to life.

Turnkey | Expertise | Immediate Resource Access | Flexibility

You can use this service for:

- Data migrations
- Decision Support
- Automation
- Custom User Experiences
- Operations Optimization
- Systems Integrations
- Project Management
- App Development
- Customer Communities
- Experience Cloud Sites
- Data architecture
- Custom development
- System Administration
- Permissions and Profiles
- Apex, LWC, VF, Javascript, APIs
