

GCB MEDICAL SUPPLY

BLOOD **2025** COLLECTION PRODUCT CATALOG

Our Story

The miraculous survival of our namesake, Georgia Claire Bowen, sparked the creation of GCB Medical Supply.

In 2018, Georgia, the fourth child of Founder and CEO, Kate Bowen, was born unexpectedly in cardiac arrest. Through her daughter's heart transplant journey and with her professional expertise in the medical device and clothing design fields, Kate developed The Georgie, a first-of-its-kind pediatric gown that allows for seamless medical assessment and monitoring, and for parents to easily connect with their babies.

GCB is on a mission to help make heart transplant a cure and not just a gift of time by funding groundbreaking research for heart transplant recipients. **Since 2020, GCB has donated over \$1.2 million to advance this critical research.**

Why GCB Medical Supply?

- No Product Stocking Issues
- Industry dominated by single supplier with inconsistent supply
- 20-30%+ savings over the larger suppliers
- Clinically equivalent product
- 90-day committed stockpile warehoused in the US
- Multi zip code manufacturing capabilities
- Diversity Spend – Woman owned company
- Intimate knowledge of blood collection products from GCB Founder's 15+ years specializing in this space
- Comprehensive conversion support lead and staffed by GCB team

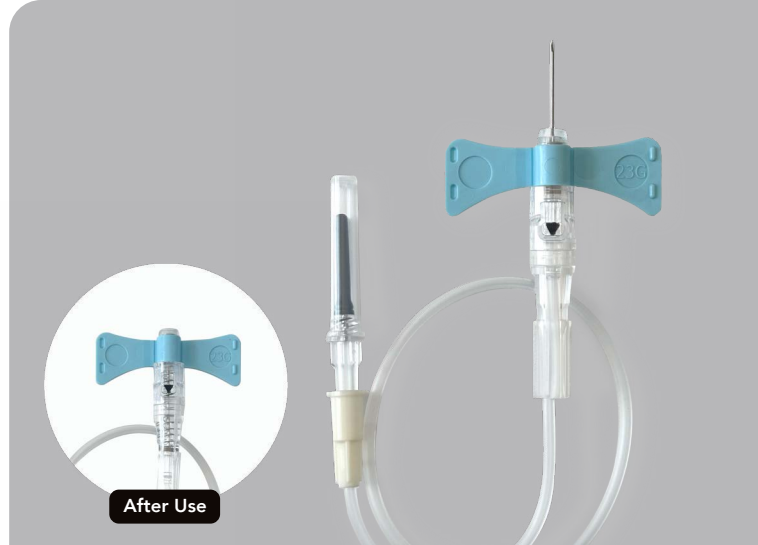

Safety Push Button Blood Collection Set

Features & Benefits

- Color coded for easy identification of needle sizes
- Ultra-sharp needle tip minimizes patient discomfort
- Enlarged double wing designed ergonomically for more comfortable handling
- Advanced soft tubing for better flow
- Safety assured, needle stick prevention
- Push Button is slightly raised and designed to prevent premature activation
- Protective cap over distal end effectively avoids contamination and provides an additional safety measure to avoid needle stick injuries
- Extended body provides better stability and protection during operation and helps to ensure immediate and complete needle retraction
- All materials are Latex & DEHP free
- Sterile blister pack, single use only
