

HOSET

Sensor service and calibration toolbox for efficient onboard maintenance

HOSET supports onboard sensor maintenance, calibration and diagnostics. The toolbox simplifies troubleshooting, improves system reliability and supports efficient sensor lifecycle management.

Why Hoppe

- Sensor check to support failure analysis
- Flexible spare part handling on board
- Protected storage of spare part sensors
- Calibration of sensor zero point
- Easy handling to parametrize sensors
- Sensor life time analysis related to each vessel

Advantages

- Avoid dead stock on the vessel
- Learn how to parametrize sensors to ensure flexible handling on board
- Improved sensor self service troubleshooting to reduce service costs
- Direct exchange of defect sensors based on a smart spare part stock
- Monitoring of all sensors to ensure a sustainable sensor management

Components

- 3 x spare sensor incl. adapters
- Tool for changing sensor adapter
- Hart modem with USB connector
- Pressure test kit for sensor
- Battery pack with HART adapter
- Tank data & Levelcom software

OUR PRODUCT RANGE

Fluid & Floating

- Valve Remote Control
- Anti-Heeling
- Tank Gauging
- Flume Anti-Rolling
- Interling Anti-Rolling
- Distance Measuring
- Draught Measurement
- Electronic Inclinator
- Dynamic Draught and Floating Monitoring
- Floating Condition Control

Performance & Energy

- Emission Monitoring
- Energy Measurement
- Shaft Power Meter
- Fuel Measurement
- Energy Saving Solutions
- Crew Connect
- Performance Monitoring
- Data Collection and Acquisition

Fleet Services

- Spare Parts
- Technical Service
- Retrofit- And Upgrades
- MIoT Digitalization Upgrade
