

FLEET SERVICES

Comprehensive lifecycle support to maximize vessel availability and long-term system performance

Hoppe Fleet Services provide comprehensive support throughout the entire lifecycle of your onboard systems. From technical assistance and spare parts to retrofits and onboard service, our global network helps maximize system availability, reduce downtime and ensure reliable vessel operation.

Why Hoppe

- Global service network
- Fast response times
- 24/7 technical support
- Experienced marine experts
- Minimized vessel downtime
- Tailored service solutions
- Reliable lifecycle support

Spare Parts

- Fast processing of inquiries and orders (within 24 hours) to ensure short-term availability
- Technical analysis and support for incomplete or unclear requests
- Alternatives offered for outdated or obsolete parts
- Inspection and repair of returned damaged parts, plus fast delivery from stock (e.g. Singapore)

Retrofit - and Upgrades

- Upgrades, conversions and system extensions for improved performance
- Applicable not only to Hoppe systems but also to other manufacturers
- Installation and service can be done during vessel operation (harbor to harbor)
- Helps extend vessel lifetime and improve efficiency (e.g. energy savings, new technology)

Technical Service

- 24/7 helpdesk and hotline with fast response to minimize system downtime
- Support in fault identification, analysis and root cause investigation
- Development of preventive mitigation and maintenance strategies
- Additional services like crew training and knowledge transfer for proper system handling

Options - and Add-Ons

- Onboard sensor service and calibration toolbox enabling maintenance, parameterisation and quick diagnostics at sea
- Increased system reliability and uptime through simplified failure analysis and zero-point adjustment
- Efficient sensor lifecycle management supporting fast exchange and preventive maintenance

OUR PRODUCT RANGE

Fluid & Floating

- Valve Remote Control
- Anti-Heeling
- Tank Gauging
- Flume Anti-Rolling
- Interling Anti-Rolling
- Distance Measuring
- Draught Measurement
- Electronic Inclinometer
- Dynamic Draught and Floating Monitoring
- Floating Condition Control

Performance & Energy

- Emission Monitoring
- Energy Measurement
- Shaft Power Meter
- Fuel Measurement
- Energy Saving Solutions
- Crew Connect
- Performance Monitoring
- Data Collection and Acquisition

Fleet Services

- Spare Parts
- Technical Service
- Retrofit- And Upgrades
- MIoT Digitalization Upgrade
