Terms & Conditions:

The Dugas Dental Discount Plan is not insurance, but a discount plan designed to help offset the cost of dental care for patients without dental insurance.

The annual fee is \$199, \$349, \$599, or \$1299 per person depending on the selected plan.

A 12-month commitment is required upon enrollment. This plan is designed to provide consistent, preventive care and treatment benefits throughout the year.

If treatment is completed using the plan (such as scaling and root planing), and the plan is canceled before the 12-month term is fulfilled, the patient will be responsible for the full, non-discounted cost of any treatment already provided.

Dugas Dental may require a comprehensive exam, periodontal charting, and full set of X-rays to assign you to the correct plan.

"Routine cleanings" apply to healthy mouths only and do not include periodontal maintenance or deep cleanings.

The membership fee is due at time of enrollment and is non-refundable, even if services are not used.

CareCredit may not be used to pay for membership fees.

Plan must remain active for the entire duration of treatment to retain discount eligibility.

Cannot be combined with other offers, promotions, or discounts.

Not transferable and has no cash value.
