### **EXPERIENCE**

#### EmpowHerTo FL

### **UX/UI** website Designer

Sep 2023

- Collaborating with the communications department, I was responsible for redesigning and developing a visually
  appealing, user-friendly, and responsive website that aligned with the organization's branding and mission.
- Implemented UI/UX improvements based on best practices and on-page SEO to enhance the website's visibility and search engine rankings.
- Customized WordPress theme, resulting in a unique and cohesive design that reflected Empowherto's vision and values and enhanced the user experience and interface design of the website.

# **Lumen Media LTD**

**UX/UI** Designer

Jun 2021 – Feb 2023

- Managed agency team to develop websites, brand identities, promotional materials, and communication strategies for a client base, including non-profit groups, political aspirants, B2B and B2C companies, and startups.
- Collaborated cross-functionally to improve user experience through iterative user flows, content audits, and heuristic
  evaluations leading the feature-level product management for the development team and communicating design
  concepts to technical and non-technical audiences.
- Designed a chatbot for an e-commerce website to streamline its product selection functionality for its customers. This resulted in an improvement in the product categorization architecture and a 15% increase in customer satisfaction.
- Successfully orchestrated 19+ outdoor events, fostering exceptional customer experiences through strategic design management, overseeing 70+ vendors, and engaging with 3000+ attendees. Collaborated with product managers to prioritize CX-focused features, leading to a 40% increase in attendance and 80% retention rates for subsequent editions.

# **Credo Advisory**

**UX and Visual Designer** 

Jun 2020 - Jul 2021

- Collaborated with Health care specialists on a national COVID-19 sensitization campaign that developed 16 evidence-based videos and 200+ flyers to communicate safety measures aimed at mitigating the spread of COVID-19. Broadcasted to 114 million digital impressions nationally across TV, web, and social media channels.
- Implemented strategies to improve communication for relief response at State and Local government levels by developing print and video materials distributed to +2.6M households of the vulnerable and poor improving their access to assistance.
- Collaborated with cross-functional design and the strategic communications team in weekly sprint circles to develop
  informational materials in English and three other languages improving the reach of communication material among
  target rural communities and other stakeholder groups.

### **Mercy Corps**

#### **Design and Print Contractor**

May 2019 - Jun 2020

 Collaborated with the communications department to oversee the creation and print production of project communication materials, including fact sheets, technical briefs, success stories, infographics, and compendiums for over 7 different projects spanning 7 states and 500,000 beneficiaries.  Drove the improvement in production efficiency for project materials and souvenirs leading to a reduction in design, production, and delivery time by an average of 10 days while maintaining high quality in conformity with USAID and Mercy Corps standards.

## Nigerian Men's National Basketball Team - D'Tigers

### **Visual Design Consultant**

July 2016 - Aug 2020

■ Lead Designer during international events, including the Olympic Games in 2020 and 2016, FIBA World Cup in 2019, and Afro Basket 2016. Developed material reporting team performance on social media channels resulting in a 45% increase in channel engagement and building followership to 100k on Twitter and 40K on Instagram.

### **ECOWAS - Regional Animal Health Centre**

**Interface Designer** 

Oct 2018 - Jan 2019

- Orchestrated a comprehensive product analysis collaborating with three teams to outline functional requirements for the transboundary disease monitoring and reporting database. This resulted in a model that improved Zoonosis case reporting by 35% across the 15 ECOWAS member countries.
- Collaborated cross-functionally to develop data collection sheets, workflows, and implementation guidelines, targeted at keeping response time between case reporting and control measure implementation under 72 hours.
- Developed the web portal interface for reporting officers, achieving the under-72-hour reporting model.
- Outlined development requirements for uniform access integration with existing ARIS 11 and OIE frameworks implemented at the local, regional, and national levels improving process automation and increasing operational efficiency by 30% in accordance with One Health standards.
- Conducted a website audit leading to a redesign resulting in a reduction in bounce rate from 67% to 32%.
