

## ClickShare : instructions for use for rooms Neptune/Venus/Pluton

💡 *This procedure is useful for the first connection. The computer should recognize the ClickShare on the second connection.*

### Procedure for PC Windows

1. Turn on the projector using the remote control (top left button). Connection information should appear on the screen. Once the projector is turned on, please check that you are connected to HDMI 1.

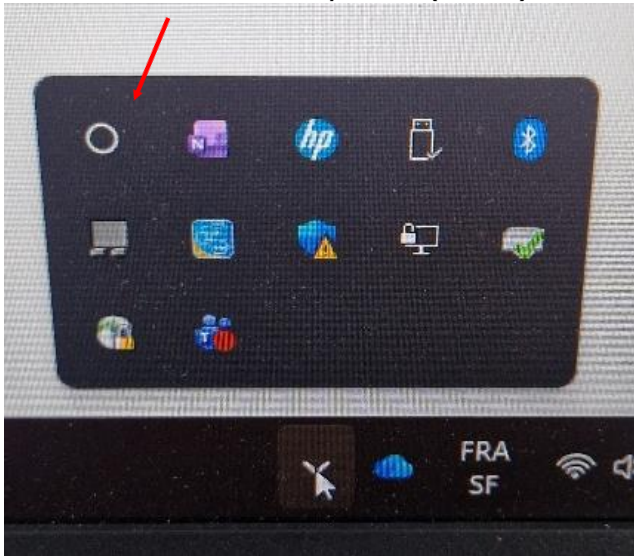

2. Plug the ClickShare into the computer and press the middle button (circle). A white light should flash (confirming that the ClickShare is connected to the computer).

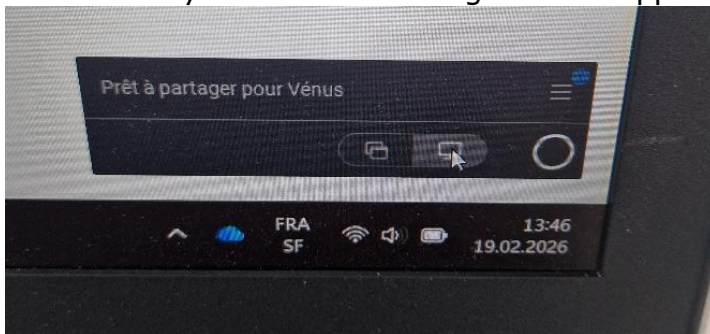

3. Launch the application: To do this, go to your file explorer, locate the ClickShare device (such as a USB drive) and double-click on the application (Windows or Mac). A pop-up will appear with the message "Ready to share for "name of the room" The white circle will no longer blink; it will remain solid white.

4. Check that the first symbol (circle) is active on your computer:

5. Select this symbol and this image should appear : Prêt à partager pour "room name":

6. Once the light turns red, the ClickShare is properly connected to your computer (if necessary, press the circle a second time; when it turns red, the screen is split.)

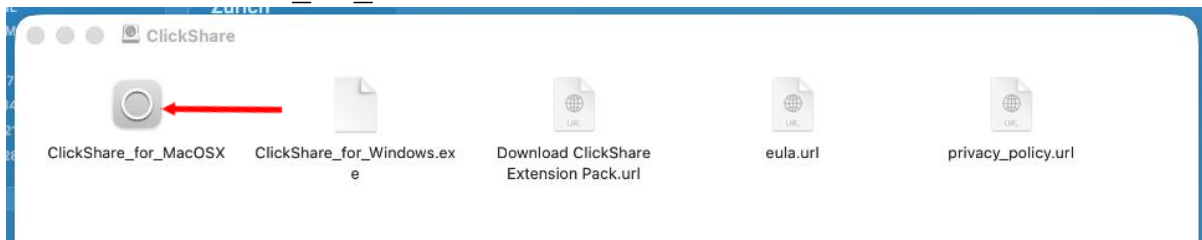

## Procedure for MAC OS

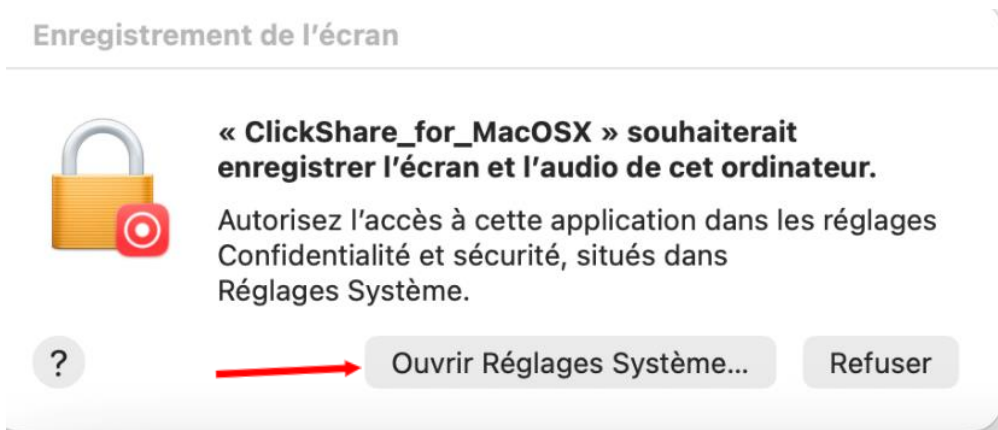

1. Connect the ClickShare to your MAC. Wait a moment. This image below will appear:

2. Clic on "ClickShare\_for\_MacOSX"

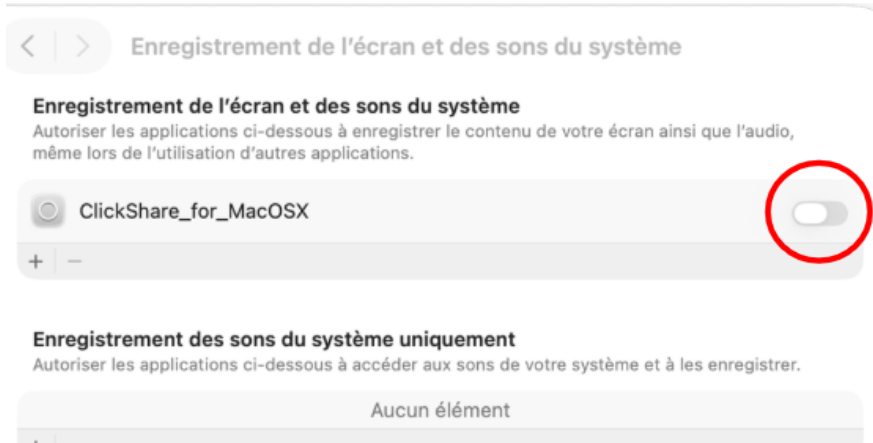

3. Clic on "system settings..."

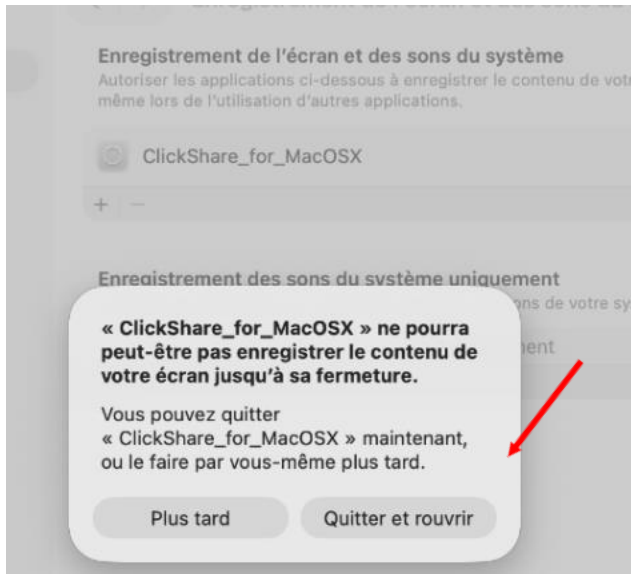

4. Authorization: use touch ID or password to confirm

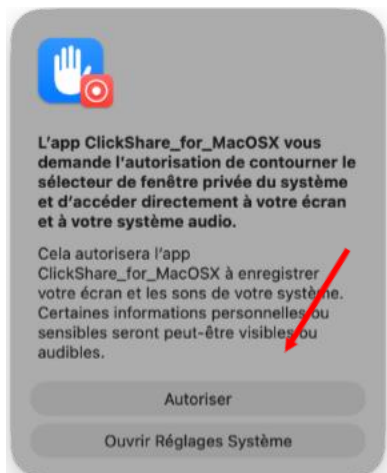

5. Clic on the right button "ClickShare for Mac OSX. Button turns green

6. Clic on "Quit and reopen"

7. Clic on "Authorize"

8. Clic on the ClickShare icon
