SOFT MOBILITY

Get to the EPFL Innovation Park on foot or by bike to stay in shape

Cycling to EPFL Innovation Park

Discover our recommended routes by bike from Lausanne, Renens, Morges or Prilly. go.epfl.ch/routes

Worried about getting sweaty? Showers are available on site.

EPFL Innovation Park companies can benefit from subsidies for electric bikes from the municipality of Ecublens.

ecublens.ch

Parking

Holders of a **Camipro** card have free access to a **324-space secure bike station** located near the M1 metro station, 24 / 7 and without registration.

Cargobike

Borrow one of the campus' **6 cargobikes** for free to transport your equipment around the campus and in the surrounding area. One cargo bike is also available at the EPFL Innovation Park on the side of building H.

go.epfl.ch/cargobikes

Did you know?

Thanks to our partnership with Tandem, employees of companies based at the EPFL Innovation Park can benefit from a 5% discount on the purchase of an electric bike and 10% on accessories. tandem.ch

BY CAR, DIFFERENTLY

**Flexible, economical and sustainable alternatives to commute to EPFL Innovation Park
or for your business trips**

Carsharing

Book one of the 9 Mobility cars on the campus and drive off! One is available in the Park near building H.

Transferable cards at preferential rates are available for all companies of the Park. Get in touch with sustainability@epfl-innovationpark.ch to get the instructions mobility.ch/en/business-customers

fairmove

Carpooling

Find carpoolers who live near you and have compatible working hours on the EPFL Fairmove carpooling platform. You can plan your trips for the week or on a daily basis.

<https://epfl.fairmove.ch/prestations>

Electric mobility

Across the campus, 6 charging stations are available to all, including visitors: Esplanade, BC, Quartier Nord and one specifically at the EPFL Innovation Park. Charging time is limited to 4h and parking fees apply.

The EPFL Innovation Park has 10 private spaces, if you are interested, please reach out to us at sustainability@epfl-innovationpark.ch.

BUSINESS TRIPS

Tools to plan an environmentally friendly business trip

Travel Less Without Loss

Within the TLWL project, the School of Life Sciences from EPFL has established a series of recommendations to make business travel more sustainable. EIP companies are encouraged to use them as a guide for their travel policies:

- Choose videoconferencing or the train for destinations less than 6h away
- Plan your trip with routeRANK
- Limit the impact of plane trips by choosing direct flights in economy class
- For flights out of Zurich: travel by train from Lausanne to Zurich

Travel smart

To assess your whole route and find the most environmentally friendly option, use the routeRANK trip planning tool.

<https://www.routerank.com/en/>

Did you know?

A trip from Paris to Lausanne by car for one person would represent an emission of 100kgCO₂e whereas it is only 2,09 kgCO₂e by train.

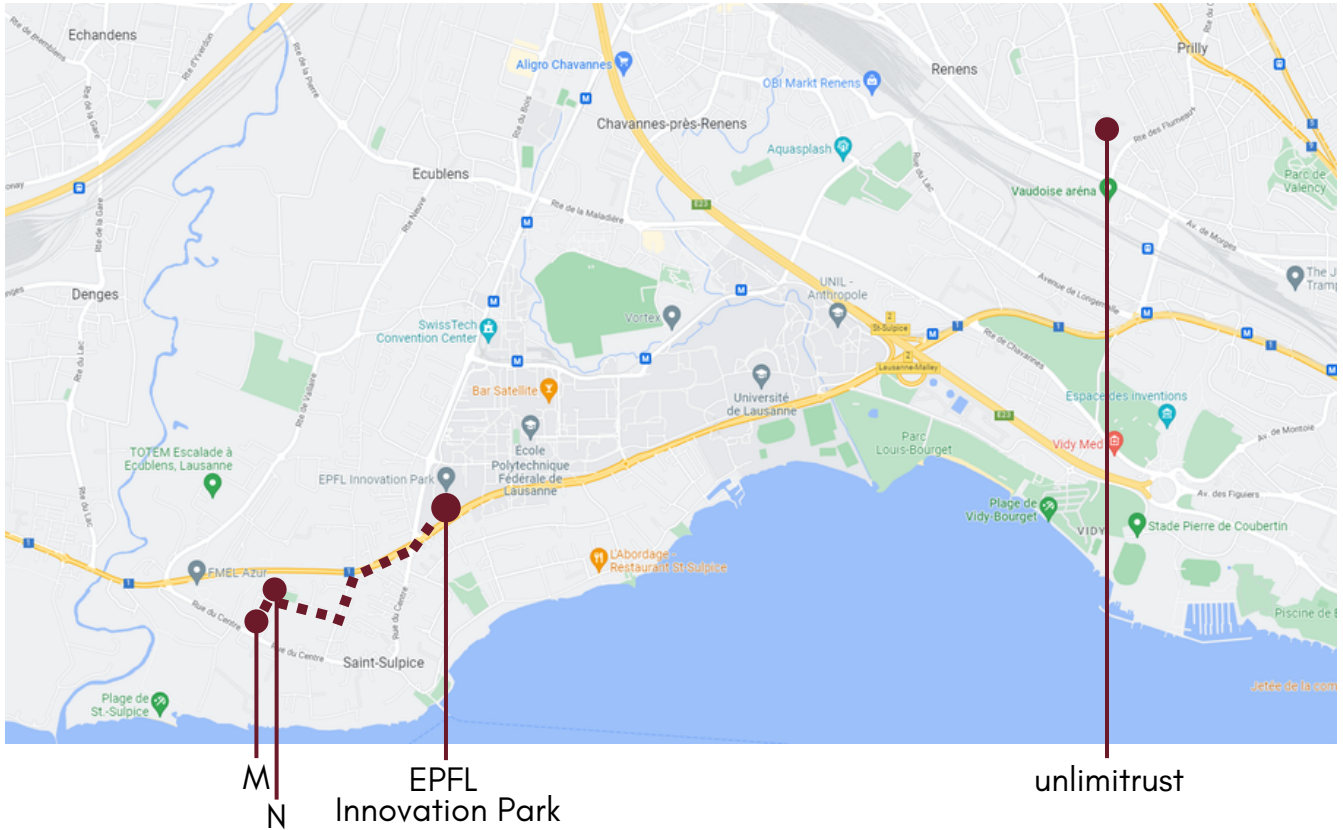

You may find this guide not exhaustive or wish to make some comments. If so, please do not hesitate to contact me.
