

AVEN.

Task Chair

Engineered for precision and adaptability, the Aven features 2.5D PU arms with multi-directional movement and synchro tilt for dynamic support. A Korean Class 4 gas lift and weight-sensitive mechanism with four tilt positions ensure ergonomic balance. The foam seat includes a depth-adjustable slider, while the TPU lumbar support adjusts in three stages—up/down and forward/back. Set on a durable nylon base, Aven is ideal for high-performance workspaces that prioritize comfort and control.
