Accessories.

Cable Tray

Cable trays can be added as an accessory, hiding any cable clutter you may have underneath your desk. This also prevents any damage to the cables that may happen.

Grommet

Grommets can be added to the top of the desk to help better organise verticle cable management your desk, to better help with cluttered desks.

Screens and Modesty Screens

Screens between employees can help give your employees privacy while working and reduce distractions including visual and acoustic. Modesty screens are installed underneath the desk top to provide privacy for peace of mind for your employees.
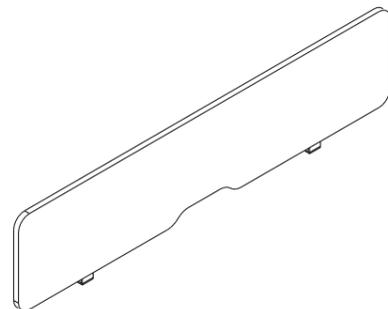

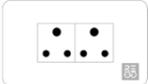

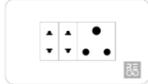

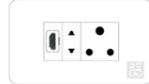

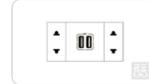

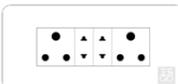

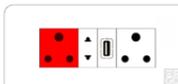

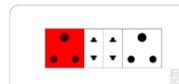

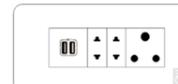

POWER DOCKS.

Plugs | Power Points

Ergoform offers our own power points that can be integrated into desks for ease and to reduce the number of wires and plug points. These power docks can be fitted with 3-pin, 2-pin, data/LAN ports, USB ports and HDMI ports. Our power docks are only available for Ergoform-made table tops.
