"From big to small containers, simple!"

## "THE GRAVIFILL PRESS"

Clean, Safe & Ergonomic Filling for large Containers

The **Gravifill Press** is a cutting-edge solution engineered for the **efficient and precise filling of pasteous and abrasive materials**. Designed to handle even the most challenging substances, this system combines hydraulic power, real-time automation, and robust construction to deliver unmatched performance in demanding production environments.

### "ENGINEERED WITH YOUR NEEDS IN MIND"

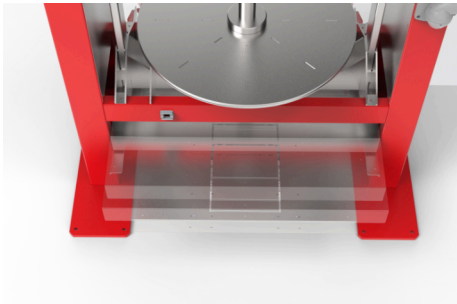

#### "HYDRAULIC PRESS"

- Powerful and durable hydraulic press to push the product with controlled force
- Precise dispensing with every cycle

#### "CUSTOM MIXING VESSEL BRACE"

- Secured vessel place holder for different sizes during operation
- Quick changeovers between high-viscosity and abrasive products

# “PERFORMING WITH POWER, THE PERFECT PRESS”

## “SAFETY FIRST”

- Emergency stop buttons
- Overload protection
- Interlocking safety systems

## “FILLING WITH CHARACTER”

Dynamical filling based on product behaviour while maintaining consistent fill levels.

## “MINIMAL OPERATOR TRAINING”

- Simple interface for easy monitoring and control
- Clear feedback supporting real-time diagnostics and troubleshooting
