

Product Description:

Plug-and-Play Functionality

Introducing SharpEagle Safe Zone Corner Guard an innovative solution designed to enhance safety in blind corners. This device provides visual and audio warnings triggered when motion is detected on both sides of the corner. Its easy snap-on installation and customizable audio settings make it the perfect safeguard for blind corners. Easy to install, self-powered, highly visible, and reliable – it's your comprehensive solution for collision detection and avoidance. Stay alert, stay safe!

Αι	udio warning:	
	Loud enough to be heard within the corner zone; pitch sets it apart from other background noise	
	Volume can be adjusted (high/low) or turned off.	
	Sounds ONLY when motion is detected on both sides of the corner	
	Synchronized with light flash to reinforce the warning	
Vi	sual warning:	
	Flashes ONLY when motion is detected on both sides of the corner	
	LED lights are angled; increasing light's intensity and optimising visibility	
	The beam is focused for best visibility and the concentrated lens increases the intensity	
Pr	oduct Features:	
	Workplace Safety Enhancement	
	Optimal Sensor and Warning Light Placement	
	Low Battery Indication	
	Secure and Stable Mounting	

Product Specifications
