

Crowd Counting at Gärtnerplatz Open Air 2026

Challenge:

Enhancing the safety of the Gärtnerplatz Open Air through automated people counting.

Solution:

Isarsoft Perception delivers real-time crowd analytics using a single fisheye camera covering the entire square.

Benefits:

- ✓ Automated measurement:
- ✓ Real-time data analysis
- ✓ Cost-efficient software solution

"Real-time visitor counts and reliable early warnings for overcrowding: Isarsoft Perception is a powerful tool that gives us the necessary overview and safety for our annual open-air event at Munich's Gärtnerplatz. The software truly impresses with its intuitive interface and camera setup."

Konstantin Graf von Keyserlingk,
Owner Dahoam in Minga GmbH
