

BaseGrid 700

Rugged, durable, and stable, BaseGrids have sound footing while helping to keep buildings clean. They reduce tracking of water, dirt, mud and other soilage in your building- reducing maintenance time and expenses. Ideal for heavy foot traffic areas, BaseGrids feature aluminum I-Beam construction with a gridlock bar that keeps beams in place. Cushions at the base of the I-Beam to reduce traffic noise and provide a firm yet resilient footing.

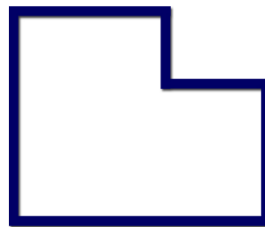

1 Select Size

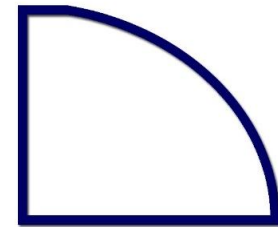

All mats are custom made per specification. Measurements down to 1/16" accuracy.
