WARDROBE SHOPPING GUIDE

for the perfect senior portrait outfits for
your senior photo session

WHERE TO SHOP

FREE PEOPLE & ANTHROPOLOGIE

This is my absolute number one recommendation if you are planning on doing any natural locations with your senior photos. Free People especially does a fantastic job at combining pattern and color together that pops in natural locations. When shopping here, I recommend grabbing one or two pieces such as maxi dresses, sun dresses or flowy tops that have blues and reds in them. This leads to vibrant photos that stand out with the beautiful sun behind you.

WHERE TO SHOP

FOREVER 21

While you might not think that Forever 21 would be great to shop at, I am finding that it's putting together a lot of really great styles right now. Especially if you plan on doing an urban session, stop by here just to see if there's anything that would work for your senior photos. Don't overlook this option!

WHERE TO SHOP

URBAN OUTFITTERS

I love when my seniors shop at Urban Outfitters when we are photographing an urban location. OU has a great variety of outfits and colors. I highly recommend this especially if you want to photograph in the Old Port area or in downtown Portland.

WHERE TO SHOP

FASHION GODS

This hidden gem of all things senior outfits! Located in the Falmouth Village, on Rt.1. This is a secondhand shop, but there can be hidden gems like brand new Free People pieces for a fraction of the cost- and usually it's stuff that they've stopped carrying so it will be different from what your friends are wearing.
