TRAFFIC ACCIDENT  
RECONSTRUCTION

## PROFESSIONAL PROFILE

*Mr. Makai Lord* earned his Bachelor's of Science in Mechanical Engineering from the Colorado School of Mines, with an emphasis in the automotive program. There, he sharpened his problem solving skills, gained real-world experience, and continued to develop his interest in cars. Through class and group work, he developed many important management and teamworking skills, being able to work well with many people and adapting to the situation.

With experience in manufacturing, automotive, root-cause analysis, and starting small businesses, he is confident in applying himself in professional and technical environments.
