

Solution Guide for
Bars, Restaurants,
& Retail Environments

Transform Your Business with Control4

Control4 delivers a beautiful, easy-to-use interface that is effortless for you to customize to your business. Easily control any intricate AV system for your bar, restaurant, gym, hospitality, or retail space on a platform that scales with your business. Beyond audio and video, Control4 also seamlessly integrates smart lighting, security and surveillance, outdoor entertainment, and HVAC control into a single unified system. Control4 can be easily installed in existing locations or new buildings, connecting seamlessly with a wide range of devices. Backed by decades of experience, it creates a user-friendly, engaging experience for your staff and customers.

Why Control4?

For an Elegant Experience

Control4 is the premium choice in commercial control platforms, offering a refined, intuitive interface that elevates the customer experience.

Centralized Management

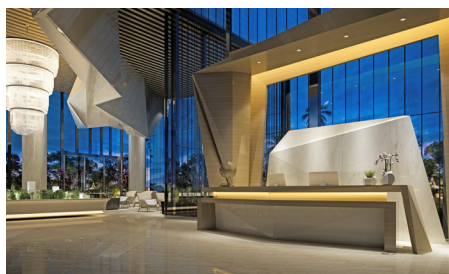

Control4 is designed for multiroom audio and video systems and saves you hours in managing displays, allowing you to control individual screens and different audio zones.

Fast and Easy to Set Up

Control4 is straightforward to set up with Simple Device Discovery Protocol and direct integration with over 25,000 devices for TV providers, content players, audio systems, security products, and more.

Easy to Monitor, Manage, and Update

Control4 is compatible with OvrC, allowing for easy remote management and troubleshooting—giving you a dependable system that will stay up and running.

How It All Works Together
