AUTUMN/WINTER 2026 WOMEN'S COLLECTION

This season is shaped for contemporary living and the rhythm of every day of the week — presenting a timeless line-up of beautifully crafted shoe wardrobe staples to cherish for seasons to come. From the perfect Penny loafer to the classic Chelsea boot and the knee-highs that carry you effortlessly from day to night, every pair is grounded in an unwavering devotion to comfort and quality, crafted by hand from supple leather and natural materials, where tradition and innovation meet in every stitch.

Colours and detailing flow from a world of warmth and calmness, with beautiful brown hues and soft textures, to an autumn landscape with pops of rich olive greens and durable materials. A modern monochrome story of black and off-white explores the interplay between the feminine and the masculine, while deep tones of amaranone and burgundy add an effortless story, also welcoming the iconic signature heart motif. Together, these themes form a collection of enduring silhouettes and the ideal capsule shoe wardrobe, ready to accompany every moment of modern life.

Handcrafted in Portugal from natural materials, ANGULUS is known for its uncompromising approach to quality and comfort, Danish design values and responsible production.
