Lester Electrical Joins LSVDA as Founding Member Supplier Partner

Lincoln, NE / Sarasota, FL — We are pleased to announce that Lester Electrical (Lincoln, Nebraska) has officially joined the Low Speed Vehicle Dealer Association (LSVDA) as a *Founding Member Supplier Partner*. Founded in 1963 in Lincoln, Nebraska, Lester Electrical has built its reputation designing and manufacturing industrial battery chargers and electrical power-conversion and storage solutions.

Prior to joining, Lester Electrical sponsored a complimentary charger giveaway during LSVDA's appearance at the Golf Carting Expo, underscoring their commitment to the low-speed vehicle market and to the dealer community. Dealers at the event responded enthusiastically, and the positive energy and strong engagement validated the decision for both parties to collaborate.

"Our team recognized the tremendous opportunity, and the enthusiasm dealers bring to servicing this market. Partnering with LSVDA and sponsoring the charger giveaway allowed us to see firsthand the positive response and the value dealers place on "Made in America" quality solutions," said Spencer Stock, President & CEO of Lester Electrical.

Lester will publish white papers and host an on-line webinar addressing technologies and safety best practices for vehicle charging. Given their strong engineering and experience, they have been nominated to serve on the Policy and Safety Committee to ensure new standards and regulations appropriately address safety concerns. And, in collaboration with LSVDA, develop new product opportunities and priority access for top tier member dealers.

This partnership marks an exciting step forward for all parties and sets the stage for deeper collaboration, innovation and value creation in the low-speed-vehicle and golf-car dealer community. "We're thrilled to welcome Lester Electrical as our newest Supplier Partner. Their leadership in battery-charger innovation and their Made in America" focus demonstrates a genuine commitment to our members. Their support strengthens our mission and brings high-value solutions to our network," said Mike Alexander, Executive Director and Secretary of LSVDA.
