

## **Manufacturing Automation & Robotics Consultant**

Lester Electrical is currently exploring opportunities to connect with an experienced **Manufacturing Automation & Robotics Consultant** to collaborate on identifying opportunities for automation and operational improvement within our manufacturing environment.

This would be a **contract / advisory engagement** focused on providing engineering insight and helping evaluate potential automation approaches.

Areas of collaboration may include:

- Reviewing manufacturing processes and operational workflows
- Identifying opportunities where automation or advanced manufacturing technologies could add value
- Providing concept-level engineering guidance and automation recommendations
- Supporting the development of practical automation approaches that can be implemented by our internal team

We are not necessarily seeking a full turnkey integration partner, but rather a **collaborative engineering resource** who can help guide automation strategy and evaluate potential solutions.

If you have experience in **industrial automation, robotics, or manufacturing process improvement**, we would welcome the opportunity to connect and discuss possibilities.

**If interested, please e-mail [RickE@LesterElectrical.com](mailto:RickE@LesterElectrical.com) for additional information**

### **About Lester Electrical**

At Lester Electrical, we power the industries that keep the world moving. For more than 60 years, we have been a trusted leader in industrial battery chargers and electrical solutions, recognized for innovation, engineering excellence, and customer-focused design. Our reputation for reliability and performance spans electric utility, railroad, and motive industrial markets worldwide. We are committed to delivering solutions that meet evolving regulatory standards and the growing demands of modern infrastructure.

*Lester Electrical is an equal opportunity employer, committed to diversity and inclusion in the workplace and does not discriminate against employees or job applicants on the basis of protected classes. All applicants will be considered for employment without attention to race, color, religion, sex, sexual orientation, gender identity, national origin, age, veteran or disability status*
