

ALMA DE FARO

LIVE THE ALGARVE

Contemporary Townhouses, Apartments and Villas in the Heart of the Algarve

A modern development that captures the soul of Faro, the capital of Algarve.

Not just a real estate project, but a space to live the outdoor Algarvian lifestyle in an authentic setting.

Nestled between land and sea, protected lagoons and pine forests, Alma de Faro is also close to Faro city center, within proximity to everything you need.

The Allure of the Algarve

With its sunny dry summers and short, mild winters, the Algarve, Portugal's southernmost region, has built a reputation as one of the most popular vacation and retirement destinations in Europe.

Yet the allure goes beyond the sun, azure waters and sandy beaches. Ancient and medieval castles, preserved old city walls and towers scattered across miles of rugged coastline overlooking the Atlantic Ocean make Algarve a varied destination packed with history, culture and natural wonders.

Faro, a Dream Destination

Alma de Faro is inspired by the uniqueness of the city of Faro — home of the natural reserve of the Ria Formosa, stunning islands, Atlantic coastline, and a history that stretches back more than 2000 years.

Dubbed as Europe's hidden gem, and nominated for the 2027 European Capital of Culture, Faro has a uniquely authentic charm for those looking for a residential location close to the city center and the sea — or a second home in one of the sunniest and historical locations in Western Europe.

Building Plots

Plots are available for investors and developers.

Why invest in plots?

Plots, ranging in size from 238 to 741 square meters, are sold with Projeto de Arquitectura.

Well-known and very desirable neighborhood for Faro residents.

Municipal services like water, sewage power and gas border the land.

Proximity to Ria Formosa, Faro Island and the prestigious Quinta do Lago resort.

Market prices in Algarve have made a full recovery compared to pre-crisis levels.

Faro has a shortage of quality modern residential units and in particular affordable villas populated home base.

During the COVID pandemic, Algarve has proven itself as an ideal destination for European retirees looking for safety and a less densely populated home base.
