

Employee Managed Services

ORDER-TO-PAYMENT ADMINISTRATION

Garnishments

Structured garnishment setup, processing, and reconciliation.

EMS runs the operating side of garnishments. Orders are set up, amended, and stopped when they should be, payments go out on the cycle, and the record reconciles when an agency or an employee asks.

What the service covers

Order Administration

- Garnishment setup, including e-IWO.
- Garnishment order management.
- Garnishment notices.

Processing and Controls

- Garnishment reconciliation.
- Garnishment payments.
- Periodic garnishment reports.

What changes for your team

Consistent Processing

The same handling of every order, whoever is on the desk.

Timely Order Administration

Orders actioned against the pay cycle rather than after it.

Clear Payment Records

Deductions, payments, and remittances that agree.

A flexible engagement model. A managed service, or targeted support on the parts you choose.

Payroll, Your Way.
