WILSHIRE INTERNATIONAL EQUITY FUND
NOTES TO SCHEDULE OF INVESTMENTS
March 31, 2021 (Unaudited)

1. Securities Valuation

Securities listed or traded on U.S. exchanges, including options, futures, swaptions and swap contracts, are valued at the last sales price on the exchange where they are principally traded. In the absence of a current quotation, a security is valued at the mean between the last bid and asked prices on that exchange. Securities quoted on the National Association of Securities Dealers Automatic Quotation (NASDAQ) System, for which there have been sales, are valued at the NASDAQ official closing price. If there are no such sales, a security is valued at the mean between the last bid and ask prices. Securities traded over-the-counter (other than on NASDAQ) are valued at the last current sale price; and if there are no such sales, a security is valued at the mean between the last bid and ask prices. Debt securities are typically valued at an evaluated bid price by a third-party pricing agent employing methodologies that utilize actual market transactions, broker-supplied valuations, or other inputs designed to identify the market value for such securities. Third-party pricing agents often utilize proprietary models that are subjective and require the use of judgment and the application of various assumptions including, but not limited to, interest rates, prepayment speeds, and default rate assumptions. Debt securities that have a remaining maturity of 60 days or less are valued at prices supplied by the Portfolios' pricing agent for such securities, if available. Otherwise such securities are valued at amortized cost if the Adviser's Pricing Committee concludes it approximates fair value. Equity securities primarily traded on a foreign exchange are typically valued daily at a price as provided by an independent pricing service, which is an estimate of the fair value price.

Foreign currency contracts, including forward contracts, are valued at the applicable translation rates as supplied by the third-party pricing vendor. In the event market quotations are not readily available, such securities are valued at fair value according to procedures adopted by the Board of Directors (the "Board") or as determined in good faith by the Adviser's Pricing Committee, whose members include at least two representatives of Wilshire Advisors LLC, formerly known as Wilshire Associates Incorporated (the "Adviser"), one of whom is an officer of the Company, or by the Company's Valuation Committee which is composed of Trustees of the Company. Fair value is defined as the amount the owner of a security might reasonably expect to receive upon a current sale. Securities whose value does not reflect fair value because a significant valuation event has occurred may be valued at fair value by the Pricing Committee or the Valuation Committee in accordance with the Company's valuation procedures. Significant events may include, but are not limited to, the following: significant fluctuations in domestic markets, foreign markets or foreign currencies; occurrences not directly tied to the securities markets such as natural disasters, armed conflicts or significant governmental actions; and major announcements affecting a single issuer or an entire market or market sector. The value of fair valued securities may be different from the last sale price (or the mean between the last bid and asked prices), and there is no guarantee that a fair valued security will be sold at the price at which a Portfolio is carrying the security. Wilshire International Equity Fund uses a third-party pricing agent who provides a daily fair value for foreign securities. In the event that the Adviser believes that the fair values provided are not reliable, the Adviser may request that a meeting of the Pricing Committee be held.

In accordance with the authoritative guidance on fair value measurements and disclosures under U.S. GAAP, the Portfolios disclose the fair value of their investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The guidance establishes three levels of the fair value hierarchy as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Portfolios have the ability to access at the measurement date;
- Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in active markets, etc.); and
- Level 3 – Prices, inputs or exotic modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

In accordance with the authoritative guidance on fair value measurements and disclosures under U.S. GAAP, the Funds disclose the fair value of their investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The guidance establishes three levels of the fair value hierarchy as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Funds have the ability to access at the measurement date;
- Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in active markets, etc.); and
- Level 3 – Prices, inputs or exotic modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. During the period ended March 31, 2021, there have been no significant changes to the Fund's fair value methodologies.

The following is a summary of the inputs used to value the Fund's investments as of March 31, 2021:

Wilshire International Equity Fund	Level 1	Level 2	Level 3	Total
Common Stocks	\$ 37,601,617	\$ 194,360,678	\$ 28,476*	\$ 231,990,771
Preferred Stocks	74,715	3,076,460		3,151,175
U.S. Treasury Obligations	-	1,674,819		1,674,819
Non-Agency Mortgage-Backed Obligations	-	7,827,365		7,827,365
Non-Agency Mortgage-Backed Obligations				
Interest-Only Strips	-	294,507		294,507
Asset-Backed Securities	-	4,730,063		4,730,063
Collateralized Loan Obligations	-	4,947,904		4,947,904
Corporate Bonds	-	11,355,263		11,355,263
Rights	-	684		684
Affiliated Registered Investment Companies	15,664,884	-		15,664,884
Total	\$ 53,341,216	\$ 228,267,743	\$ 28,476	\$ 281,637,435

Other Financial Instruments**

Assets				
Unrealized appreciation on futures contracts	\$ 392,907	\$ -	\$ -	\$ 392,907
Unrealized appreciation on swap contracts	-	9,622,709	-	9,622,709
Total Assets	\$ 392,907	\$ 9,622,709	\$ -	\$ 10,015,616

* Includes securities that have been fair valued at \$0.

** Other financial instruments are derivative financial instruments not reflected in the Schedule of Investments, such as futures contracts and swap contracts. These contracts are valued at the unrealized appreciation (depreciation) on the instrument.

Refer to the Fund's Schedules of Investments for a listing of the securities by industry or sector type. Wilshire International Equity Fund held common stocks, that were measured at fair value on a recurring basis using significant unobservable inputs (Level 3) totaling \$28,476. A reconciliation of Level 3 investments, including certain disclosures related to significant inputs used in valuing Level 3 investments, is only presented when a Portfolio has over 1% of Level 3 investments.

2. Affiliated Investments

Due to Voya managing a portion of Wilshire International Equity Fund during the three months ended March 31, 2021, certain securities held by such Portfolio are considered affiliated investments. Purchases and sales of shares of affiliated registered investment companies by Wilshire International Equity Fund during the three months ended March 31, 2021 and the value of such investments as of March 31, 2021 were as follows:

Counterparty	Value as of December 31, 2020		Purchases	Proceeds from Sales	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value as of M arch 31, 2021	Income Distribution
Voya Emerging Markets Hard Hard Currency Debt - Class P	\$ 2,350,962	\$ 30,008	\$ -	\$ -	\$ -	\$ (143,396)	\$ 2,237,574	\$ 29,900
Voya High Yield Bond Fund - Class P	2,842,037	42,300	(500,000)	12,099	(35,780)	2,360,656	40,408	
Voya Investment Grade Credit Fund - Class P	2,262,923	17,655	(500,000)	(36,102)	(77,695)	1,666,781	16,192	
Voya Securitized Credit Fund - Class P	9,263,281	79,109	-	-	57,483	9,399,873	79,699	
	\$ 16,719,203	\$ 169,072	\$ (1,000,000)	\$ (24,003)	\$ (199,388)	\$ 15,664,884	\$ 166,199
