

## THIRD QUARTER 2021

## Active Income Portfolio Rebalance Summary

### Overview

The second Wilshire Active Income Portfolio rebalance for Q3 reflects updated views from Wilshire's Manager Research Group and the Portfolio Management team for this portfolio. Wilshire uses the rebalance period as an opportunity to adjust both the strategies included in the portfolio and the allocations to each fund. The following table summarizes the main changes implemented for the second Q3 rebalance:

### Q3 Manager Allocation Changes

#### Eliminate allocation to Eaton Vance EM Local Currency fund

Eaton Vance announced on September 8, 2021 that Michael Ciriaco and Michael O'Brien, Co-Directors of the Emerging Markets team, and Sarah Orvin, Portfolio Manager on the team, have left the firm to pursue another opportunity. We view this as a significant departure and materially negative event for the team. These are senior members of the team that have built the strong track record and unique trading platform that supports the team's investment style. Due to these departures, we are reducing Eaton Vance Emerging Market Local Income by 4% from 4% to 0% and allocating 4% to the PGIM High Yield fund. In support of this additional allocation to high yield, we would also note that sector is in good shape due to strong corporate profits, economic growth, and strong debt service. This change is anticipated to slightly decrease credit quality, decrease duration, and decrease the portfolio's distribution yield.
