

CONTEXA CREATION START

A first step towards creative process automation

TECHNOLOGICAL INNOVATION: COLIBRI LITE

This new competitive, simple and compact technology offers a volumetric approach. It guarantees high productivity for both small and large quantities. The precise syringes ensure optimal dosing quality.

PLUG & PLAY

CC-START is easy to install, so you can get up and running quickly. One week after delivery, you can already take advantage of the machine's functionalities, with automatic integration of the CONTEXOR software.

UNIQUE COMPACTNESS

Its compact size makes it an ideal choice for creation and sampling centres. Specifically designed for small spaces, the CC-START has a reduced floor footprint while remaining highly performant.

BENEFITS

High productivity regardless of formula quantity

Designed for small spaces

Simple, competitive and compact volumetric technology

Accurate dosing

Quick to install and start up

Use of raw materials in suppliers' packaging

200 RAW MATERIALS, 3 SQM

TECHNICAL SPECIFICATIONS

Productivity: 12+ formulas per hour

Smallest dosage: one drop

Footprint: from 3 sqm for 200 raw materials with stock

Maximum beaker size: 5 kg

Conveyor capacity: 10+ beakers

Customisable: +

OPTIONS

DORY Software

Life Cycle Services

Nitrogen blanketing

Touch screen

Unattended production
