

# Invest in Your India Salesforce DevOps Delivery Team

## CopadoCon 2026

### The Largest Salesforce DevOps + AI Conference for Enterprise Delivery Teams

CopadoCon 2026 brings together Salesforce developers, DevOps leaders, architects, testing teams, and AI practitioners to explore the future of AI-driven software delivery.

For global enterprises with large India delivery organizations, CopadoCon is an opportunity to accelerate AI readiness, modernize DevOps practices, and ramp up to accelerated Agentforce delivery.

### It's Time for AgentOps

Salesforce delivery organizations are entering a new era.

AI is reshaping:

- software delivery
- release management
- testing
- governance
- operational scale
- developer productivity

Agentforce is accelerating the shift toward agent-driven Salesforce operations, creating new demands around governance, testing, release coordination, and operational visibility.

CopadoCon helps delivery teams prepare for how Agentforce and Agentic workflows change enterprise Salesforce operations.

# Uplevel Your Salesforce Delivery Teams

## Accelerate AI Readiness

Give your developers, admins, architects, and DevOps teams hands-on exposure to:

- AI-driven Salesforce delivery
- Agentic DevOps workflows
- AI-powered testing
- Release orchestration
- Operational automation
- Modern DevOps practices

## Invest in Your India DevOps Organization

Support the teams responsible for day-to-day Salesforce execution with:

- Technical enablement
- Operational best practices
- Agentforce development and deployment
- Community engagement
- Peer learning

## Learn From Enterprise Leaders

Hear how enterprise organizations are modernizing Salesforce delivery with:

- AI-powered DevOps
- Scalable release management
- Intelligent testing
- Governance automation
- Self-healing operational workflows

## Modernize Salesforce Delivery Operations

Explore strategies to improve:

- Deployment speed
- Release governance
- Testing maturity
- Developer productivity
- Operational scalability
- Cross-team coordination

## Strengthen Team Engagement & Retention

CopadoCon gives developers and DevOps teams exposure to the next generation of Salesforce operations and AI-driven delivery. This helps teams:

- Stay current on emerging technologies
- Engage with the Salesforce DevOps community
- Expand technical skills
- Build long-term career growth

## Who Should Attend

- ✓ Salesforce Developers
- ✓ DevOps Teams
- ✓ Salesforce Architects
- ✓ QA & Testing Teams
- ✓ COE Leaders
- ✓ System Integrator Delivery Teams

## What Makes CopadoCon Different

CopadoCon is built for practitioners. Attendees gain access to:

- Live AI workflow demonstrations
- Technical deep dives
- Hands-on Agentic DevOps experiences
- Enterprise best practices
- Product engineering sessions
- Testing and Release Management masterclasses

### Suggested AE Talk Track

"Many of our enterprise customers with large India delivery organizations are using CopadoCon as a way to accelerate AI readiness and modernize Salesforce DevOps practices across their teams. This is less about attending a conference and more about investing directly in the future operating model of your Salesforce delivery organization."

## Featured Experiences

### The Leaders' Circle

Real-world stories from global enterprises modernizing Salesforce delivery.

### The Agentic Playground

Hands-on demonstrations of AI Agents operating inside Salesforce DevOps workflows.

### Masterclass Tracks

Deep technical sessions on DevOps, Testing, AI, governance, and release operations.

## Event Details

13 June 2026

Sheraton Grand Whitefield, Bengaluru, Karnataka
