Wind catcher

Part A

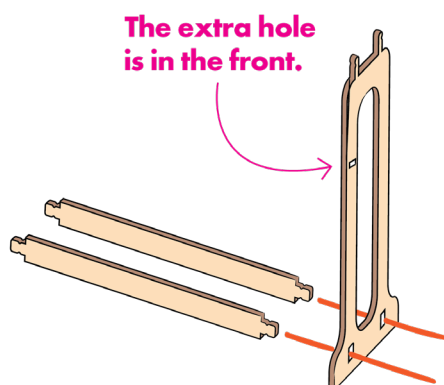

MAKE THE STAND

You'll need:

	Frame pieces
	Bottom bars
	Slotted piece
	Chimes
	Clear rings
	Red ring
	Striker holder

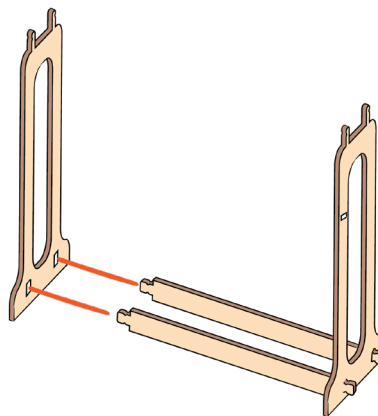

Step 1

Grab the **frame piece** with the extra hole. Slide the **bottom bars** into the holes at the bottom.

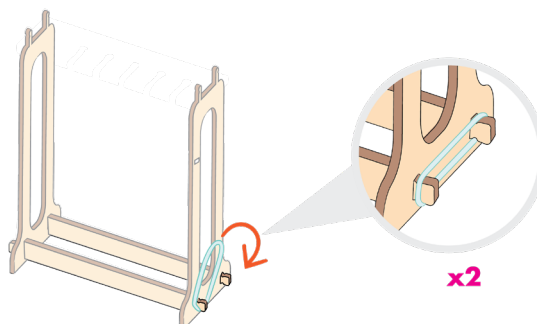

Step 2

Slide the other frame piece on the other end.

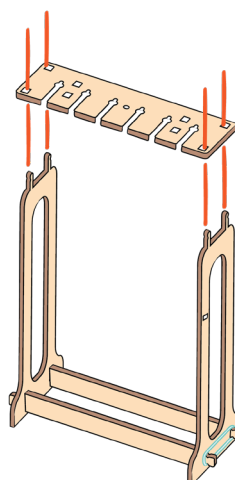

Step 3

Stretch a **clear ring** across the bars. Repeat on the other side.

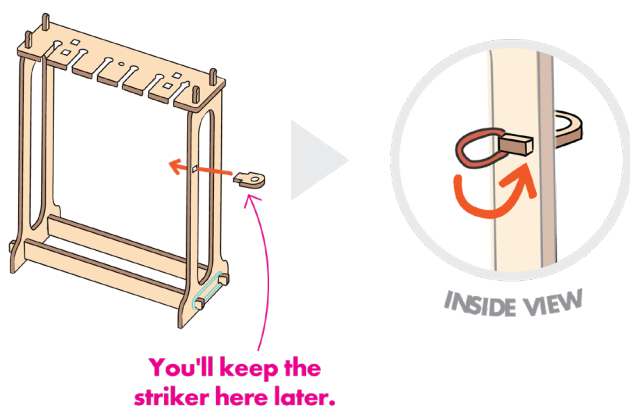

Step 4

Add the **slotted piece**.

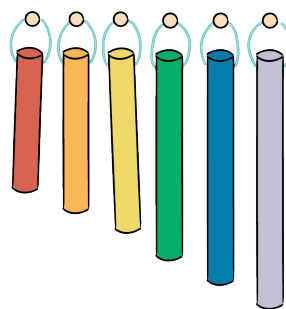

Step 5

Push the **striker holder** into the hole in the frame piece. Stretch a **red ring** across the holder to keep it in place.

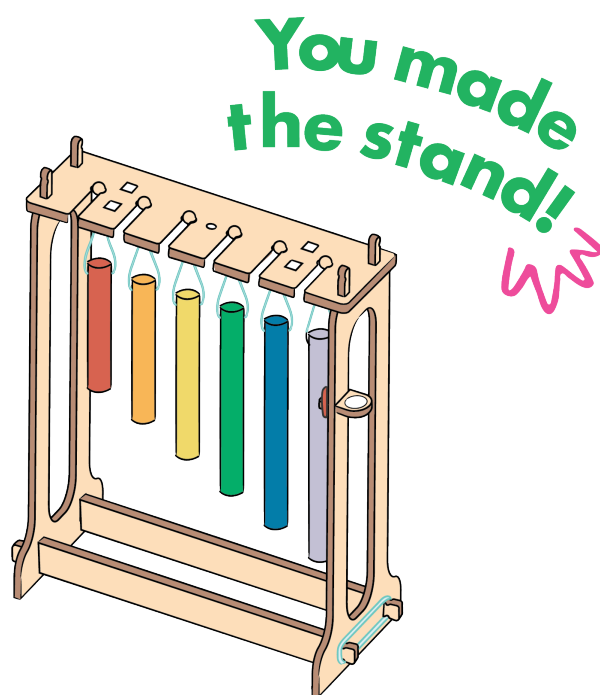

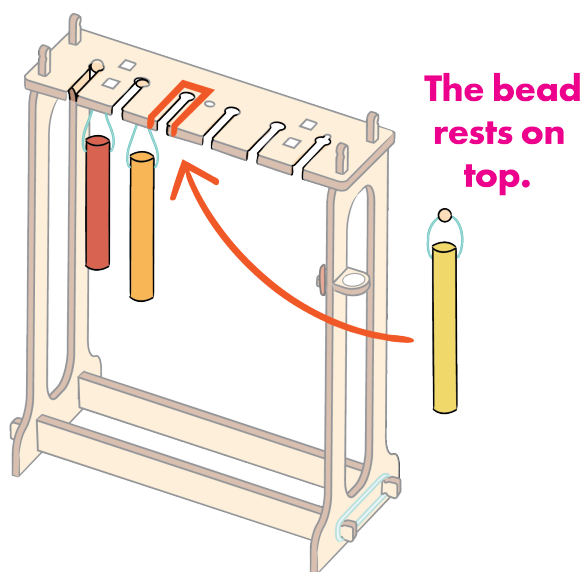

Step 6

Line up the chimes from shortest to longest.

Step 7

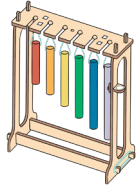

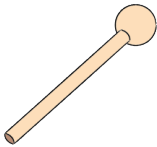

Slide the shortest chime into the left slot. Then hang the rest of the chimes in order.

Part B

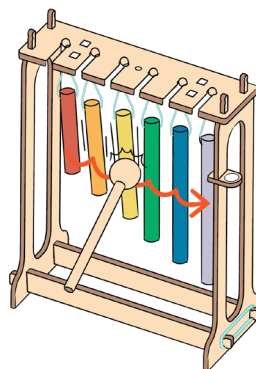

MUSIC EXPERIMENTS

You'll need:

	finished stand (from part A)
	striker

Step 2

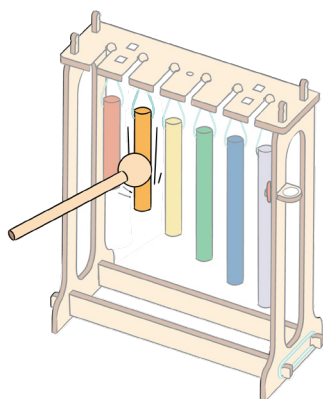

Tap each chime in the stand, from shortest to longest. What do you hear?

The sounds go from high to low!

Step 1

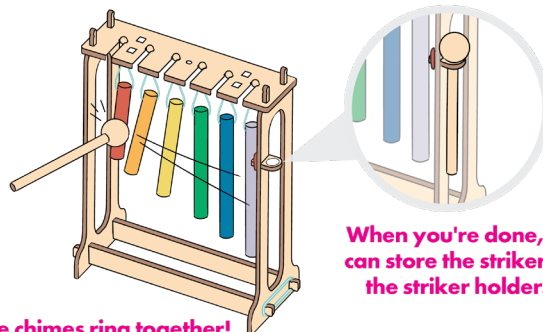

Use the **striker** to tap a chime. What happens?

It makes a sound!

Step 3

Drag the striker across all of the chimes at once. How does it sound?

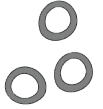

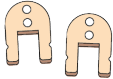

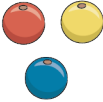

All the chimes ring together!

When you're done, you can store the striker in the striker holder.

Part C

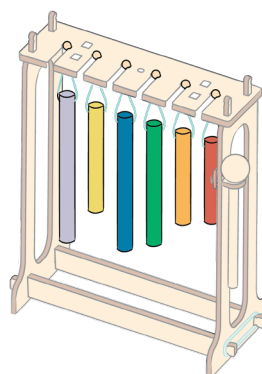

FINISH THE CHIMES

You'll need:

	Finished stand (from part B)
	Top piece
	Clear rings
	Black rings
	Braces
	String
	Big bead
	Hook
	Wind catcher
	Small beads

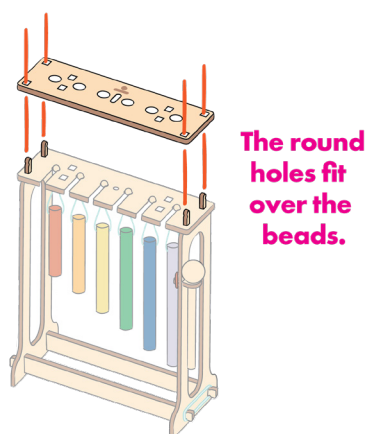

Step 1

If you want, rearrange your chimes to whatever order you like.

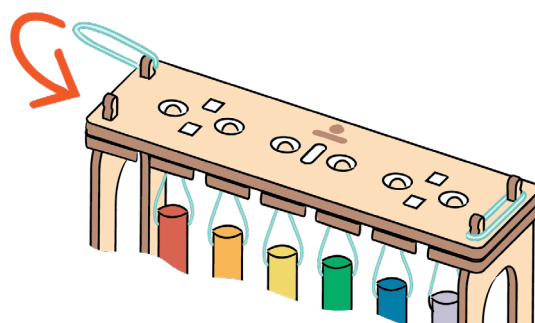

Step 2

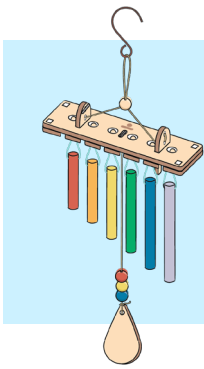

Add the **top piece**.

Step 3

Stretch a **clear ring** across the tabs on top to hold the top piece in place. Repeat on the other side.

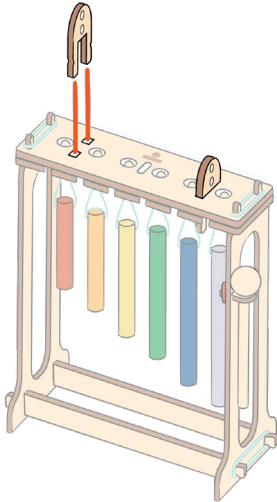

**You can keep your chimes in the stand or
you can hang them outside!
To hang them up, keep building**

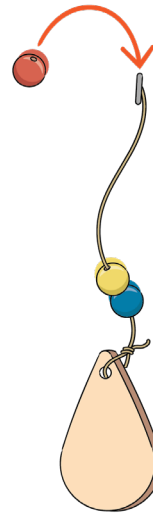

Step 4

Slide the **braces** into the slots on top.

Step 6

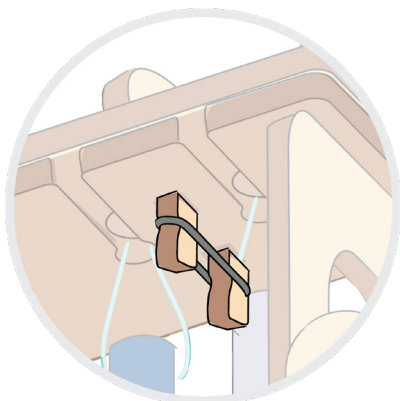

Grab the **wind catcher** and add some **small beads** to the string. Add as many as you want in any order you like.

**Save the big bead
for a later step.**

Step 5

Stretch a **black ring** across the legs of a brace.
Repeat on the other brace.

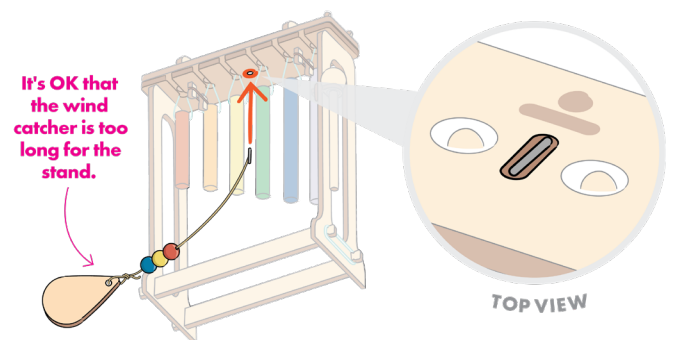

x2

BOTTOMVIEW

Step 7

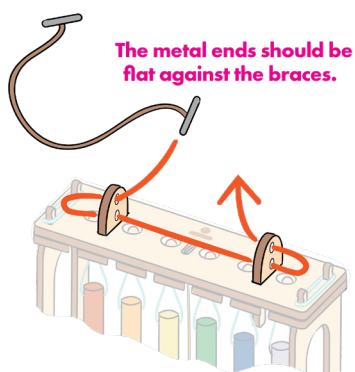

Grab the wind catcher and add some small beads to the string.
Add as many as you want in any order you like.

TOPVIEW

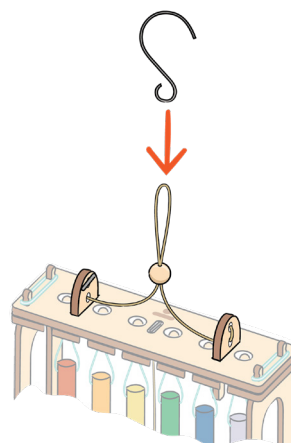

Step 8

Weave the end of the **string** through the top hole and out the bottom hole of a brace. Do the reverse for the other brace.

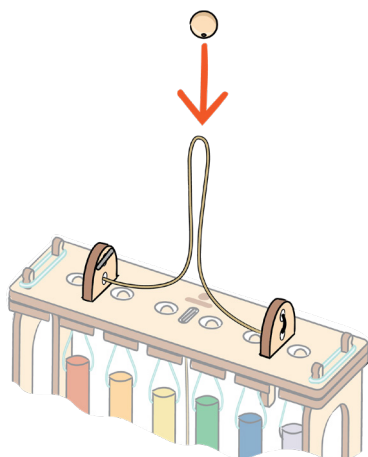

Step 10

Put the string on the small loop of the **hook**.

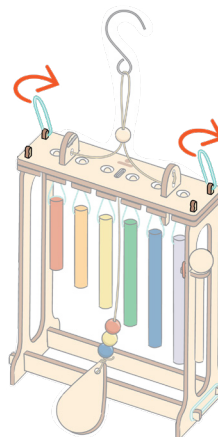

Step 9

Fold the string and slide on the **big bead**.

Step 11

Remove the clear rings from the top of the stand.

Step 12

Lift the top pieces off the stand. You have now completed your chimes!
