

Hello & Namaste

I'm Rohit, an inquisitive Product designer from Bangalore, India. I have over 13 years of combined experience in designing Mobile Apps(iOS, Android, BlackBerry OS), Desktop apps(Mac), Websites and WebApps.

I love typography, minimalism, and all things elegantly crafted. When not designing, I spend time woodworking or experimenting with various DIY techniques. Recently, I've dipped my toes into the world of Vibe coding and experimented with various AI tools; my current favourite — Gemini CLI with MCPs.

Work Experience

2024 – Present

Google • UX Designer (L4)

- Led the design for the Data Distribution and Roles & Permissions charters for Looker and Looker Studio.
- Advocated for accessibility standards and implementation within the team/product.
- Experimented with AI tools to determine leverage points for streamlining the development workflow.

2019 – 2024

VMware • Senior Product Designer

- Led various research projects to analyze user behaviour and the landscape, creating concise research reports and product stories.
- Defined and Led the Experience design for VMC Sizer. Collaborated with other designers on VMC on AWS (Networking and Compliance)

2018 – 2019

Tally • UX Designer 2

Researched and developed Design Systems

2014 – 2018

Newton (CloudMagic) • Senior Product Designer

- Led Experience Design for CloudMagic/Newton iOS App. Also refreshed and kept the website current.
- Improved user experiences holistically by working on the Brand image and identity

2012 – 2014

DelightCircle • Interaction Designer

A 5 member startup where I was responsible for Design as well as web development. I worked on Designs for Android, iOS, Blackberry and the Web.
