

A large, stylized illustration of eagle wings, rendered in a low-poly, geometric style. The wings are dark grey and black, with a yellow glow emanating from the base where they meet the body. They are spread wide, filling the upper half of the page.

Eagle Freedom Fund Impact Report

Q1 2026

The goal of high impact venture capital is solving problems with exponential compounding effect on people's lives.

Generated impact across:

21 Companies

Eagle Freedom Fund is an impact-driven venture capital fund investing in early-stage technology companies developing scalable solutions to combat human trafficking and modern slavery.

Intro

How much impact is your investment having?

This statement of impact is an attempt to answer that question. We've taken the total impact of each company, then we look at what portion of the capital the company has received has been provided by Eagle Freedom Fund, and finally looked at what portion of that capital you provided.

Here is an example

9,000 doctors and nurses trained by portfolio company Altus
× (\$2.3m total capital Altus has raised / \$2.1m invested by Eagle Freedom Fund)
× (\$100k you invested / \$19m fund size)
= 45 doctors and nurses trained attributed to your investment

Walkthrough Video

Eagle Ventures

The Exponential Nature of For Profit Impact

We look forward to updating these impact statements over time because we will watch the impact of some companies exponentially grow, despite the fact that this fund won't add any capital to them.

 This is Warren Buffet's "Eighth Wonder of the World" (compound growth) applied to impact!
