- Caveo
- DejaVu AI
- Eagle Venture Studio Asia
- Ecoo
- Evidencity
- FreightPOP
- Immerse
- Patient Sortal
- VeroSkills
- Vurvey
- Wise Medicine

Introduction

How much impact is this fund having?

This statement of impact is an attempt to answer that question. We've taken the total impact of each company, then looked at what portion of the capital each company has raised was provided by Eagle EC Investments. That share of the impact is what we attribute to the fund.

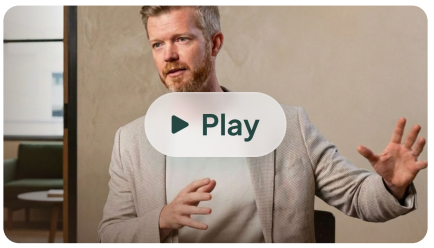

Here is an example

200,000 students learning English with portfolio company Immerse
× (**$200k** invested by Eagle EC Investments / **$15m total capital Immerse has raised**)
= **2,667 students learning English attributed** to Eagle EC Investments

General Partner — Eagle Venture Fund

The Exponential Nature of For-Profit Impact

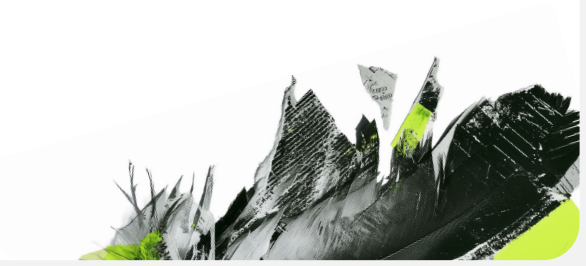

We look forward to updating these impact statements over time because we will watch the impact of some companies exponentially grow, despite the fact that this fund won't add any capital to them.

This is Warren Buffett's "Eighth Wonder of the World" (compound growth) applied to impact!

ArborXR

ArborXR

An enterprise platform for deploying and managing VR and AR headsets, used by 5,500+ organisations to run immersive training at scale.

Brad Scoggin
