

## Disposal of Product Packaging

- Cardboard boxes, pack-fill and reel flanges may be recycled with any other card/paper-based products
- Plastic film, pallet wrap, and bubble wrap can be recycled together with other 'non-rigid' plastics
- Plywood reels may be recycled with other waste timber
- The tin tubes that form the centre of smaller cable reels can be recycled with other scrap metal
- If you are not based in the UK, please ensure that you comply with applicable local and/or national legislation

## End of Product Life – Safe Disposal of AMC Products

We hope and expect that your AMC product will give you many years of trouble-free service. Inevitably, a time will come for replacement and, as part of our commitment to protecting the environment, we would like to offer some advice about recycling the main components:

- Cable – for large quantities we recommend contacting a local licenced scrap metal dealer. Copper is valuable and the company will be able to separate it from the PVC insulation and recycle that too. For small quantities, visit your local recycling centre and recycle with other small electricals
- Accessories/components should be recycled with other electricals. For small quantities, visit your local recycling centre and recycle with other small electricals
- Please never dispose of our products with other 'general' or 'landfill' waste streams
- If you are not based in the UK, please ensure that you comply with applicable local and/or national legislation
