About Serenbe

Serenbe is a sustainable community created by founders Steve and Marie Nygren in an effort to protect the rural and beautiful environment surrounding the city of Atlanta.

The once small home to them soon flourished into a B&B on the farm and eventually into a full-fledged community filled with shops, restaurants, arts and more.

Serenbe strives to make their residents and visitors understand the importance of well-rounded living, which can be seen in their design of the four hamlets of the community that focus on art, wellness, agriculture and education.

These efforts to sustain the natural beauty of rural Georgia is what allow for stunning weddings to take place at Serenbe year round.
