STRETCH WRAP

only from A-ROO Company

VENTED STRETCH WRAP

- Allows airflow through wrapped loads
- Reduces moisture buildup and condensation
- Helps protect moisture-sensitive products
- Common Applications: Fresh flowers & plants, produce shipments, cold storage environments, temperature-controlled transport and high-humidity operations

VENTED & PRE-STRETCH FILM
AVAILABLE
TO ORDER

PRE-STRETCH FILM

- **MATERIAL EFFICIENCY** | Pre-stretched film is thinner and lighter, reducing material waste while still providing strong load security
- **ENHANCED LOAD STABILITY** | The film adheres better to the shape of the items being wrapped, creating a more secure package
- **EASE OF APPLICATION** | Since the film is already stretched, it requires less tension to apply, making it easier to use

CUSTOM SOLUTIONS
AVAILABLE
BUILT TO YOUR APPLICATION

If your operation is unique, we'll build the solution.

All the Strength. Added Protection. Improved Product Stability.

Engineered for Strength. Built for Efficiency. Trusted Every Day.
