

Data Protection and Privacy Objectives

Farnborough Airport Limited is committed to protecting the privacy and security of the personal data it collects.

Subject	Objective	Result and status
Responding to Data Subject Requests	We commit to responding to all Data Subject Access Requests (DSARs) within one month, in line with GDPR requirements. Where requests are complex, we will inform individuals within the month and may extend the response time.	Achieved in 2025 and we strive to do so again in 2026
Notify Authorities of Data Breaches	If a personal data breach occurs that may pose a risk to individuals rights and freedoms, the DPO will notify the ICO without delay and within 72 hours of the discovery.	Achieved in 2025 and we strive to do so again in 2026
Conduct Annual Data Protection Training	All employees will complete mandatory UK GDPR training once per year.	Achieved in 2025 and we strive to do so again in 2026
Complete DPIAs for High-Risk Processing	We will complete Data Protection Impact Assessments (DPIAs) before introducing any new high-risk processing activities or technologies.	Achieved in 2025 and we strive to do so again in 2026
