

Product Stewardship Policy

At MBS Architectural (MBS (VIC) PTY LTD), we are committed to being a responsible and environmentally conscious supplier of mineral fibre ceiling products. We recognise the importance of product stewardship in minimising the environmental impact of our operations and products throughout their life cycle. Our commitment extends to the responsible sourcing of raw materials, efficient manufacturing processes, and the promotion of reuse and recycling.

In conjunction with our manufacturing partners and suppliers we will take back mineral fibre ceiling products and recycle in the following ways.

Our product stewardship options include:

1. Refurbishment of mineral fibre ceiling products for possible reuse by existing customer or on selling/remarketing to new customers.
2. On selling or donation of mineral fibre ceiling products in existing condition to other commercial businesses or organisations.
3. Disassembly of mineral fibre ceiling products for component and/or materials reuse in new product manufacturing.
4. Disassembly of mineral fibre ceiling products for materials recycling by approved operators/recycling companies.

Product Safety & Health

We prioritise the safety and health of our employees, customers, and the communities where we operate. We will comply with all applicable product safety regulations and standards, and proactively communicate information regarding the safe handling, use, and disposal of our metal ceiling products.

Sustainability Commitments

We have made commitments to improve our sustainability. We focus on increasing recycled content and tracking our product stewardship program.

Continuous Improvement

We are committed to continuous improvement in our product stewardship practices. This includes setting measurable goals, monitoring our progress, and regularly

reviewing and updating our policies and procedures to align with emerging best practices, technological advancements, and regulatory requirements.

Transparency & Reporting

We will maintain transparency in our product stewardship efforts and provide accurate and timely information regarding our environmental performance, product sustainability attributes, and compliance with relevant regulations. We will strive for open communication with our stakeholders and encourage dialogue on product stewardship matters.

Stakeholder Engagement & Collaboration

We will actively engage with stakeholders, including customers, suppliers, industry associations, and regulatory bodies, to exchange knowledge, address challenges, and promote responsible product stewardship practices within our industry.

This Product Stewardship Policy Statement represents our commitment to responsible manufacturing, sustainable practices, and the continual improvement of our metal and mineral fibre ceiling products. By adhering to these principles, we aim to contribute positively to the environment, protect human health, and support the well-being of future generations.
