CONSIDERATIONS & CARE INSTRUCTIONS

- Avoid earth or soil coming in contact with the fence.
- Check drainage holes occasionally for any blockages.
- Do not use fertilisers and garden chemicals in or around fence.
- Check for underground services (gas, power, water and telephone).
- Slope all concrete away from post to limit any water build up around base of post.
- Regularly clean (monthly) all fences and gates with a soft brush and mild detergent solution. (Do not use harsh abrasive products)
- Wash down fencing after each swim in a salt water pool environment.
- Do not lean or stack materials against the fence.
- Immediately remove all metal filings from self-drilling screws, and other steel particles to avoid rust and staining.

Product Overview

Guardian Valla Series offers a flexible modular system to suit all your fencing and screening projects with colours carefully selected to match trending roof and joinery tones. Customise the panel kits to suit your space, alter the width or height of the light weight aluminium components with ease.

**100mm Valla Slat Packs are a modern all in one solution and can be easily converted to Solid Infill by adding one of our "Slat to Solid" Packs to provide full privacy.*

Features & Benefits

- ✓ Easy DIY installation
- ✓ Lightweight & Durable
- ✓ 100mm Slat or Solid Infill Panel
- ✓ Gates fully assembled to match all systems
- ✓ Modular System (Cut to size)
- ✓ 10 year warranty

All Valla Series Slat packs come complete with all components to complete a full infill panel, just select the posts to suit your application (Inground or Flanged). Finally complete your look with a matching gate and post caps.

All Packs Include: Spacers, Channels & Screws
