

# RADIANT LAW: HOW WE CAN HELP

We are contract specialists, only doing managed legal services and contract projects. This is when we might be able to help you:

	Contract Projects	Managed Legal Service
Scenario	You are facing a pile of contracts that need to be reviewed/updated and you can't absorb them in your team's day-to-day work. It might be related to a regulatory change, an acquisition, or re-papering.	Your team is unable to get to the strategic work, because you have to handle lots of day-to-day contracts.
Is Radiant right for this?	<ul style="list-style-type: none"><li>• You have a deadline.</li><li>• It involves something more complex than extracting just a few data points that can be done automatically. Clients use us for hard/urgent projects that involve judgement and often negotiations.</li><li>• You need someone to manage this and get it off your desk.</li><li>• Contracts are in English.</li></ul>	<ul style="list-style-type: none"><li>• More than 50 contracts of a similar type a year (we can handle lots of types, and much higher volumes).</li><li>• Value of the typical contract (for commercial contracts) is up to £10m (we've done billion pound deals, but that's not a managed legal service).</li><li>• Contracts are regularly negotiated (so not consumer contracts).</li><li>• You need support in time zone (for negotiations and calls with the business).</li><li>• Contracts are in English.</li></ul>
What we bring	<ul style="list-style-type: none"><li>• We review and remediate large volumes of contracts (including bespoke drafting, negotiations and signatures).</li><li>• Fixed pricing (either per contract or a total fixed price), so you can budget.</li><li>• Proven project methodology that we tailor and proactive management, so we start faster and hit deadlines.</li><li>• Scalable team of lawyers who bring judgement, so we can meet your deadlines and get the project off your desk.</li><li>• Technology (including AI where it helps), so you don't have to procure or install anything.</li><li>• Live reporting through a dashboard, so you always know what is going on.</li><li>• Data and reports in the format you need, so the project adds long-term value and you understand what happened.</li></ul>	<ul style="list-style-type: none"><li>• We support the end-to-end contracting process, from triage through drafting, negotiations and signatures.</li><li>• Fixed pricing (either per contract or a retainer basis), so you can budget.</li><li>• Proven methodology, so we close your contracts safely and at pace (we average 90% half-day turnarounds).</li><li>• Scalable team of lawyers who bring judgement to negotiations and work within your risk parameters.</li><li>• Technology that helps, including document automation and an interactive portal with live reporting, and we can work with what you use already.</li><li>• Continuous improvements, so the service and your contracting process keeps getting better.</li><li>• Regular governance, so that we can drive change and address any concerns.</li></ul>
Work examples	EBA/PRA regulatory remediation, IR35 regulatory remediation, GDPR regulatory remediation, business merger and acquisition reviews and remediation.	<p>3,600 sales contracts each year for a global financial data supplier.</p> <p>1,700 sourcing contracts each year for a global bank, including triage of 4,000+ instructions a year.</p> <p>1,800 NDAs each year for a global investment management organisation.</p>
