

**BL-11GALE-MB | BL-11GALE-BG INSTRUCTIONS**

Thank you for your purchase of this indoor/outdoor rated table lamp. Designed to integrate seamlessly into your home décor, this light also offers the convenience of battery powered operation for use around the house. Perfect for ambient lighting for dinner, deck parties, lake life, reading and more, these Amerelle lamps are as stylish as they are functional.

**BL-11GALE-MB**

**BL-11GALE-BG**

**Key Features:**

- IP44 rating for weathertightness – dust and rain tight for light outdoor use
- Li-Ion rechargeable batteries with USB-C connectors
- Stepless dimming

**Lamp Assembly:**

- To assemble your lamp, unscrew the shade ring off of the lightbulb socket.
- Remove the shade.
- Gently take the top metal pole and screw it into the base pole of the lamp.
- Place the shade back on to the light bulb socket right side up.
- Secure the shade in place by screwing on the shade ring.
- Screw in the light bulb.

**Operation:**

- Once your lamp is assembled be sure to fully charge your lamp.
- To turn on your lamp, tap the power button at the base of the lamp. (Fig. 1)
- To Dim the light, press and hold the power button down until the desired brightness is reached. (Fig. 2)

**CAUTION**

- **Do not disassemble or modify the product.**
- **Do not look directly at the LED light source when lighting.**
- **Please disconnect the USB cable when the product will not be used for a long time.**
- **Use and store product between 32 Degrees and 104 Degrees F**
- **Do not leave the product outdoors for an extended period to avoid damage from weather and strong sunlight.**
- **To clean the lamp, wipe with a soft and dry cloth.**

*Tap for Operation*

Battery Maintenance and Charging:

NOTE: FULLY CHARGE LAMP BEFORE INITIAL USE

Charging:

- To charge your lamp, connect the included power cord into the lamp's USB-C port on the base of the lamp. The light near the charging port will turn red when charging is in process. Charging is complete when the indicator light turns green.

Extended Storage:

- To achieve optimum battery longevity when the lamp will not be used for an extended period (>1 month), keep the charge between 20% and 80%. It is advised to regularly charge/discharge the product to maintain this level. A rule of thumb to get to 80% is to charge the lamp fully then operate at full brightness for two hours.

CHARGING IN PROGRESS

Product SKU	Height	Max Lumens	Color Temperature	Run Time	Charge Time	Battery Capacity	IP Rating
BL-11GALE-MB	16.9 in.	180 lm	3000K	26+ Hours	8-9 Hours	5200 mAh	IP44
BL-11GALE-BG							

**WARNING:** Do not disassemble or modify this light. Modification voids the manufacturer's warranty and any applicable regulatory certifications this light may possess.
