Welcome to Complete

At Complete VCE Education, we are committed to delivering the **highest quality VCE tuition in Victoria**.

As STEM specialists, we bring **over six years of experience** and a team of tutors who have scored raw 50s, helping more than 500 students — many achieving raw scores of 40+.

Starting out as pure VCE Physics specialists, we are excited to launch our Mathematical Methods tuition program for 2026 due to high student request.

Our program is built for **clarity, structure, and results**. Weekly two-hour classes are offered online or at our CBD campus and include a **1000+ question bank, targeted SAC preparation, personalised feedback**, and **round-the-clock support** through our **online community**.

With a passionate, professional team, we break down complex ideas, focus on what matters, and help students perform at their best when it counts.

Our Teaching Team

Christopher Tran

- Bachelor of Science, University of Melbourne
- 99.95 ATAR
- Raw 50 in Physics and Methods (2023)
- Raw 50 + Premier's Awards in Specialist (2023), Chemistry, and Latin (2022)

Sarvotam Singh

- Bachelor of Engineering (Hons), Swinburne University
- 4+ years of teaching experience
- 99.65 ATAR, Raw 44 in Methods + Raw 50 in Physics

Founder of Complete VCE Education

Raphael Chang

- 6+ years of teaching experience
- MD – University of Melbourne
- BSc (Neuroscience)
- 99.90 ATAR

Year 11 MM Tutor - Sav

My name is Sav. I am a 4th year engineering student who graduated in 2021 with a score of 44 in Mathematical Methods and a perfect Physics score of 50. As an experienced tutor, I have strong insider knowledge of the VCE Math Methods and Physics study designs, allowing me to tailor my classes towards study efficiency and excellence rather than blind repetition of the formulas.

It is my belief that once you have thorough understanding of the core content, you don't need to do tons of practice questions, which is the motto all my lessons are based on. This not only allows my lessons to be interesting and enjoyable but also saves time for students' other commitments during VCE. Whilst many teachers (and even tutors) simply regurgitate the content from the coursework whilst providing minimalistic problems, and then expecting students tackle the hardest questions, you can be assured that my lessons provide an ideal high-achiever's learning environment. I'll make sure your capabilities are tested so that you can achieve to the best of your abilities.

Outside of teaching, I enjoy rock climbing, playing cricket outdoors and playing the guitar!

Year 12 MM Tutor - Christopher

My name is Christopher Tran. I am a final year Bachelor of Science student at the University of Melbourne, majoring in pure maths. I completed VCE in 2023, with a score of 50 in Mathematical Methods (and Specialist Mathematics) and a 99.95 ATAR. I also have extensive experience in maths competitions at a national and international level, which means I understand well the competitive nature of performing at the highest level, a skill well-applicable to VCE.

I don't believe in rote learning of mathematics; it doesn't work. What does work, however, is sustained exposure to a wide range of ideas, manifesting in varied and challenging problems. My aim is to provide thought-provoking questions which improve not only technical ability, but also inspire a broader appreciation of how to think about maths.

Outside of teaching, I dabble in piano, running and speedcubing, among other hobbies.

Year 11 Enrichment - \$70/week

Selected entry. For top-performing students seeking an advanced, competitive, and stimulating learning environment.

The Enrichment Programme is a selective stream for students who want to push themselves to the highest level. This is where the **best** students train together, developing **competition-level skills** and **precision thinking**.

Programme Highlights:

- Selective entry ensures a classroom of equally driven peers
- Motivated learning environment that pushes students to perform at their peak
- Mentoring by our most accomplished tutors

Sunday - 2:30pm-4:30pm (Hybrid)

Year 12 Enrichment - \$80/week

Selected entry. For ambitious and motivated students targeting the very top of the state ranking, willing to put in the work to master every aspect of VCE.

This is the **highest** level of Year 12 preparation. The Enrichment Programme is selective and designed for students aiming for elite results. Classes are **competitive, fast-paced, and intellectually demanding**, taught by the **most experienced tutors**.

Programme Highlights:

- Advanced problem sets and extension topics
- Selective, competitive peer group that drives excellence
- Mentorship from our most senior tutors

Sunday - 4:30pm-6:30pm (Hybrid)

2026 Y11 Teaching Calendar

2026 Year 11 Mathematical Methods Teaching Calendar

Year	Week Commencing	Lesson	Topic	Term
2026	12-Jan	L1	Basics of Algebra	Term 1
	19-Jan	L2	Linear Graphs	
	26-Jan	L3	Simultaneous Equations	
	2-Feb	L4	Inequalities and Applications	
	9-Feb	L5	Coordinate Geometry	
	16-Feb	L6	Quadratic Algebra	
	23-Feb	L7	Quadratic Graphs	
	2-Mar	L8	SAC Preparation 1/1	
	9-Mar	L9	Gallery of Graphs	
	17-Mar	L10	Functions and Relations 1	
	23-Mar	L11	Functions and Relations 2	
	30-Mar	L12	Cubics	Term 2
	6-Apr	L13	Higher Degree Polynomials	
	13-Apr	L14	Transformations 1	
	20-Apr	L15	Transformations 2	
	27-Apr	L16	SAC Preparation 1/1	
	4-May	L17	Basics of Probability 1	
	11-May	L18	Basics of Probability 2	
	18-May	L19	Counting Methods	
	25-May	L20	Discrete Probability	
	1-Jun	L21	SAC Preparation 1/1	
	8-Jun	L22	Index Laws	Term 3
	15-Jun	L23	Logarithm Laws	
	22-Jun	L24	Exponential + Log Graphs	
	29-Jun	L25	Applications of Exponentials and Logs	
	6-Jul	L26	SAC Preparation 1/1	
			BREAK	
	20-Jul	L1	The Unit Circle	Term 3
	27-Jul	L2	Graphs of Sine and Cosine	
	3-Aug	L3	Tangent Function + General Solutions	
	10-Aug	L4	Applications of Circular Functions	
	17-Aug	L5	SAC Preparation 1/2	Term 4
24-Aug	L6	SAC Preparation 2/2		
31-Aug	L7	Average Rates of Change		
7-Sep	L8	Differentiation		
14-Sep	L9	Applications of Differentiation		
21-Sep	L10	Further Differentiation		
		BREAK		
5-Oct	L1	Antidifferentiation	Term 4	
12-Oct	L2	Applications of Antidifferentiation		
19-Oct	L3	SAC Preparation 1/2		
26-Oct	L4	SAC Preparation 2/2		
2-Nov	L5	Mock Exam		
9-Nov	L6	Mock Exam Review		
			2027 Yr12 STARTS	

2026 Y12 Teaching Calendar

2026 Year 12 Mathematical Methods Teaching Calendar

Year	Week Commencing	Lesson	Topic	Term
2026	12-Jan	L1	Linear Equations + Coordinate Geometry	Term 1
	19-Jan	L2	Functions	
	26-Jan	L3	SAC 1 Preparation 1/3	
	2-Feb	L4	Transformations 1	
	9-Feb	L5	Transformations 2	
	16-Feb	L6	Quadratics	
	23-Feb	L7	Higher Degree Polynomials	
	2-Mar	L8	SAC 1 Preparation 2/3	
	9-Mar	L9	Exponential Equations	
	16-Mar	L10	Logarithm Equations	
	23-Mar	L11	Exponential + Logarithm Graphs	
	30-Mar	L12	Circular Functions 1	Term 2
	6-Apr	L13	Circular Functions 2	
	13-Apr	L14	Circular Functions 3	
	20-Apr	L15	Basics of Differentiation	
	27-Apr	L16	SAC 1 Preparation 3/3	
	4-May	L17	Mock SAC 1	
	11-May	L18	Mock SAC 1 Review	
	18-May	L1	Advanced Differentiation	Term 3
	25-May	L2	Applications of Differentiation	
	1-Jun	L3	SAC 2 Preparation 1/2	
	8-Jun	L4	Basis of Integration	
	15-Jun	L5	Advanced Integration	
	22-Jun	L6	Applications of Integration	
	29-Jun	L7	SAC 2 Preparation 2/2	
	6-Jul	L8	Mock SAC 2	
	13-Jul	L9	Mock SAC 2 Review	
	20-Jul	L1	Discrete Probability 1	
	27-Jul	L2	Discrete Probability 2	
	3-Aug	L3	Binomial Distribution	Term 4
	10-Aug	L4	SAC 3 Preparation 1/3	
	17-Aug	L5	Continuous Probability	
	24-Aug	L6	Normal Distribution 1	
	31-Aug	L7	Normal Distribution 2	
	7-Sep	L8	SAC 3 Preparation 2/3

	21-Sep	L10	SAC 3 Preparation 3/3	
	28-Sep	L11	Mock SAC 3	
	5-Oct	L12	Mock SAC 3 Review	
	12-Oct	L13	Unit 3/4 Revision	
	19-Oct	L14	Mock Exam	
	26-Oct	L15	Mock Exam Review	
				END OF THE YEAR

Enrolment Timeline

1. Arrange a Free Consultation

- Send us an email at completevceeducation.com or call us at 0435 162 222 to see how we can best meet your child's needs

2. Secure Your Spot

- Choose your preferred mode of delivery (in-person/online)
- Pay for the term to confirm your enrolment and unlock resources

3. Start Strong, Aim High

- Join a group of ambitious students
- Get expert guidance, advanced practice, and real exam skills
- Set yourself up to ace VCE

Our Vision

At Complete VCE Education, we are dedicated to delivering the **highest quality** VCE Math Methods and Physics tuition in Victoria.

Previously, we have specialised in one subject — and exceptionally well. With **over six years of experience**, a **team of tutors who have scored raw 50s**, and a track record of helping over 500 students (many achieving 40+ raw scores) in Physics, we know **exactly** how to guide students to success.

Now we aim to deliver the **same** experience in Math Methods, and inspire even larger cohorts of students to success.

Our program is built around clarity, **structure**, and **results**. Weekly two-hour classes run online or at our CBD campus, supported by a 1000+ question bank, targeted SAC preparation, personalised feedback, and out-of-class help through our online community.

We will make clear the inherent structure and logic behind math and build up skills from the fundamentals all the way to the most complex questions, as well as performing when it matters — all with a driven, professional team that **genuinely cares about student growth and outcomes**.
