WORK EXPERIENCE

2021 - PRESENT: FREELANCE PRODUCT DESIGNER

- Working closely with clients to lead UX/UI projects from early concept to final handoff.
  Along the way, I manage freelance UI designers when needed and make sure the process stays clear, accurate, and aligned with the industry standards and client's goals

JAN 2023 - PRESENT: UX DESIGNER AT UXPERT

- UX/UI design and project management for a wide variety of companies, specializing in complex systems

- Created advanced products prototypes using Figma to help young startups raise money

- Trained employees and customers to use Figma's advanced abilities and features

- Founder and editor of the company's blog, sharing insights and stories about the UX industry

MAY 2023- SEP 2023: UX/UI TUTOR AT APPLESEEDS

- Built a syllabus and presentations for a 3 months UX/UI course for high school students, some of them were defined as youth at risk

- Taught the basics of Figma design and prototype and the basics of a product design working process

JUNE 2022- NOV 2022: PRODUCT DESIGNER AT VAULT AI

* Termination of employment due to company's layoffs

- UX/UI design for the internal and external products of the company through ideation, research, wireframes, prototypes and design

- Founded and managed the design system of the platform

2015 - 2019: BLOG WRITER

- Founded and edited the blog "BoNichtov" and "Frishfresh", writing about technology and information addictions

MILITARY SERVICE

MAR 2016 - NOV 2018

- A combat soldier, commander and platoon sergeant in the "Combat Intelligence collection corps" unit
