IV. SOURCE OF DATA

The source of the data is the Data Subject.

V. DATA MANAGEMENT

In the course of its activities related to the Website, the Data Controller performs the following data processing, which is indicated separately for the sake of transparency, indicating the type of data processed, the purpose of data processing, legal basis, data source, data recipients and data storage period.

1. Data management related to the use of the contact form feature of the Website

When using the <https://bluecolibriapp.com/> website, Visitors to the website have the opportunity to make a direct inquiry, send us a message to request personalized information about our service and a free trial/demo. When establishing a connection, you must provide your full name, company e-mail address, company name, job title, company size and company location (country) on the contact form so that we can respond to you. It is not necessary to provide other personal data (phone number, “how did you hear about us”, message, Interested in our Reseller Program) for sending the message, however, if the visitor also records such data in the text of the request, we will handle them during the data management related to the request. The personal data you provide when using the “**Contact Us**” menu will be processed for the purpose of customer management and to the extent necessary for that purpose. After responding to a request, we store data for one year to ensure effective communication and customer history.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Website's contact form (" Contact Us ") feature	Full name Company e-mail address Company name Job title Company size Company location (country) Additional optional fields: Phone number “How did you hear about us” Message text Interested in our Reseller Program	Answering inquiries, providing demos	Consent of the Data Subject (Article 6 (1) (a) of GDPR)	Data subject	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	After responding to a request, we store the data for one year to ensure effective communication and customer history.

2. Data processing related to inquiries to our e-mail address and telephone number displayed on the website

The Visitor has the opportunity to contact us directly by e-mail and telephone. Requests received through these channels will be sorted based on the content of the request and the personal information provided during such contact will be handled for the purpose and to the extent necessary for customer management. After responding to a request, we store data for one year to ensure effective communication and customer history. If a customer relationship (contract) is established during the contact, we will provide a separate data management policy.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Inquiries to a central email address	Name E-mail address In addition, any additional information provided in the request	Answering inquiries, providing demos	Consent of the data subject (Article 6 (1) (a) of the GDPR), which is deemed to have been given by sending the message	Data subject	Server provider as a data processor Mail service provider as data processor	After responding to a request, we store the data for one year to ensure effective communication and customer history.
Inquiries to a central telephone number	Name E-mail address	Answering inquiries, providing demos	Consent of the data subject (Article 6 (1) of the GDPR), which is considered to have been given by calling the central telephone number	Data subject	-	Incoming calls to the central telephone number will not be recorded, data management is limited to the duration of the call
Records of requests for central contact	Name Phone number Company name E-mail address	Answering inquiries, providing demos	Legitimate interest (Article 6 (1) (f) of GDPR), follow-up to requests and action taken on them	Data subject	CRM system and newsletter service provider as a data processor	After responding to a request, we store the data for one year to ensure effective communication and customer history.

3. Data management related to the use of the “Newsletter” feature of the Website

When using the <https://bluecolibriapp.com/> website, Visitors to the website have the opportunity to subscribe to the Blue Colibri newsletter to receive the latest professional

news. When signing up to the newsletter, you must provide your full name and company e-mail address on the contact for. Additional optional fields: company name, job title, company location. After subscribing to the newsletter, we store data until withdrawal of consent. The newsletter of the data controller is available in Hungarian, English and German, the subscriber will be sent a newsletter in the language that was the subscriber's language preference when using the website.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage

4. Data management related to the use of the “Book a demo” feature of the Website

When using the <https://bluecolibriapp.com/> website, visitors to the website have the opportunity to request an online demo of the system. When requesting a demo, you must provide your full name, business e-mail address, company name, job title, company size and company location on the contact form so that we can respond to you. The personal data you provide when using the “**Book a demo**” menu will be processed for the purpose of customer management and to the extent necessary for that purpose. After responding to a request, we store data for one year to ensure effective communication and customer history.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
--------------------------------	-----------------------	----------------------------	--------------------------------	----------------	-------------------------------	--------------------------

Website's "Book a demo" feature	Full name Company e-mail address Company name Job title Company size Company location (country) Additional optional fields: Phone number “How did you hear about us” Message text	Answering inquiries, providing demos	Consent of the data subject (Article 6 (1) (a) of GDPR)	Data subject	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	After responding to a request, we store the data for one year to ensure effective communication and customer history.
--	--	--------------------------------------	---	--------------	---	---

5. Data management related to submitting a request for a customized price quote

When using the <https://bluecolibriapp.com/> website, the Website’s visitors have the option to request a customized price quote by submitting a form. When requesting a custom quote, you must provide your full name, company email address, company name, job title, and company size on the form; you also have the option to send a message. If the price quote is ultimately not accepted, we will store this data for one year from the date of the quote request.

Indication of the data controller's legitimate interest: when submitting a request for a customized quote, the purpose of data processing is to send a quote based on the request and to create a contract based on it, as well as to identify the requester and maintain contact with them in connection with this. The data controller processes this data in order to be able to send a quote to the requester at their request via their contact person. The purpose of data processing cannot be achieved in any other way.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Use of Website's custom price quote function	Full name Company e-mail address Company name Job title Company size Message text	Answering inquiries, providing demos, assessing the specific goals of those requesting quotes, providing personalized quotes	Legitimate interest - (Article 6(1)(f) GDPR)	Data subject	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	If the price quote is ultimately not accepted, we store the data for one year from the date of the quote request.

6. Data management related to the use of the “Downloads” feature of the Website

When using the <https://bluecolibriapp.com/> website, Visitors to the website have access to downloadable knowledge materials (webinars, templates, checklists, etc.) produced by Blue Colibri. When requesting an access, you must provide your full name, business e-mail address, company name, job title, company size and company location (country) on the contact form. The personal data you provide when using the “Downloads” menu will be processed for the purpose of customer management and to the extent necessary for that purpose. After responding to a request, we store data for one year to ensure effective communication and customer history.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Website's "Downloads" feature	Full name Company e-mail address Company name Job title Company size Company location (country) "In which language would you like to receive the material" Additional optional fields: Phone number Message text	Making knowledge material available Answering inquiries, providing demos	Consent of the Data Subject (Article 6 (1) (a) of GDPR)	Data subject	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	After responding to a request, we store the data for one year to ensure effective communication and customer history.

7. Data processing related to the use of “Career page” of the Website

When using the <https://bluecolibriapp.com/> website, Visitors have the opportunity to apply for jobs and open positions advertised by Blue Colibri on the <https://hub.bluecolibriapp.com/career-page> subpage, and fill out the form by providing the necessary personal information and uploading their resume for the job application. When applying for a job, the form requires you to provide your full name, email address, phone number, and upload your resume in the language specified in the advertisement. The personal data provided on the "Career Page" is processed to the extent necessary for establishing an employment relationship and for contact and communication with the job applicant. The data is stored for 3 months following the conclusion of the application process (unless an employment relationship is established).

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Applying for a job advertisement on the Career page, filling out the form	Full name E-mail address Phone number Content of the resume, the personal data indicated therein	Establishment of an employment relationship Contact and communication purposes	Consent of the Data Subject (Article 6 (1) (a) of GDPR)	Data subject (job applicant)	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	Data will be kept for three months from the conclusion of the application process (unless an employment relationship is established).

8. Data processing related to registration for training courses, webinars advertised through the Website

- a. By using the website <https://bluecolibriapp.com/>, the visitor of the website has the possibility to register for training courses and webinars organized by Blue Colibri International Ltd. When contacting us, the user must provide his/her full name, company email address, company name, position in the contact form in order to receive information about the training and to be able to send pre- and post-training, webinar communication materials to the applicants. No other personal information is required to send the messages.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Provision of registration for training courses and webinars advertised on the website via our own sales platform	Full name Company e-mail address Company name Position	Registering for and providing information about events Organization and delivery of training courses	Consent of the Data Subject (Article 6 (1) (a) of GDPR)	Data subject	Server provider as a data processor Mail service provider as data processor CRM system	Data will be stored for one year after the training or webinar activity in order to know the customer history or, if earlier, until the Data Subject's consent is withdrawn.

					provider as a data processor

9. Data processing related to registration for events announced through the website

- a. By using the website <https://bluecolibriapp.com/>, the Visitor of the website has the possibility to sign up for events organized by Blue Colibri International Llc. Upon making the contact, the contact form requires the user to provide his/her full name, e-mail address, company name, position in order to receive information about the event, as well as pre- and post-event communication materials. No other personal information is required to send messages. Data will be kept for one year from the date of the event to ensure effective communication and customer history.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Provision of registration for events announced on the website on its own sales interface	Full name Company e-mail address Company name Position	Registering for and providing information about events	Consent of the Data Subject (Article 6 (1) (a) of GDPR)	Data subject	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	Data will be kept for one year from the date of the event to ensure effective communication and customer history.

- b. In the case of some events, it may happen that the external service provider provides the ticket purchase interface. In such a case, with the ticket purchase order, the Data Subject navigates to the ticket purchase interface, which is operated by an external service provider, and during the ticket purchase, this external service provider acts as an independent data controller. With the purchase of a ticket, a contractual legal relationship is established between the Data Subject and the Data Controller, the subject of which is the organization of the given event and the Data Subject's participation in it. During the ticket purchase, the name, company e-mail address and position data are forwarded by the external service provider to the Data Controller, we process this data for the purpose of sending the participant information materials before and after the event. In addition, after the event, the data is processed in order to follow up the customer history.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Registration for events announced on the website on an external sales	Full name Company e-mail address Position	Sending information materials before and after the event	Contractual obligation - (GDPR Article 6 (1) point b)	An external service provider providing a ticket sales interface (ultimately the	Operator of the ticket sales interface as an independent data controller	30 days after the event

interface, maintaining contact with ticket buyers				person handling the ticket purchase)	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	
Follow-up of the customer history after the event	Full name Company e-mail address Position	Tracking customer history	Legitimate interest in tracking customer history - (GDPR Article 6. (1) f))	An external service provider providing a ticket sales interface (ultimately the person handling the ticket purchase)	Server provider as a data processor Mail service provider as data processor CRM system provider as a data processor	After the event, we store the data for one year in order to know the customer history.

c. Photo and video recordings made at events

Photos and videos can be taken at our events. These photo and video recordings are primarily crowd shots, their purpose is to show the atmosphere and overall effect of the event, the people in the shots do not stand out individually, but are present in the picture as a crowd. The consent of the data subject is not required for the preparation and use of mass recordings. In addition, there may be recordings in which the Data subjects can be clearly identified, in their case the recording may take place with their consent. In particular, the written consent of the Data subject is considered to be consent, but it is also considered consent if the data subject poses, smiles into the camera, etc., while being aware of the recording.

We display the recordings for marketing purposes on the following interfaces:

- Webpage: <https://bluecolibriapp.com/>
- Facebook: <https://www.facebook.com/bluecolibriapp>
- LinkedIn: <https://www.linkedin.com/company/blue-colibri-app>
- Youtube: <https://www.youtube.com/@bluecolibri1651>
- Instagram: <https://www.instagram.com/bluecolibriapp/>
- Newsletter

If you do not want to appear in these recordings, please let the photographer/videographer colleagues know on the spot. Or if and if a photo of you has been published that you do not want to see on our platforms, please let us know at the email address hello@bluecolibriapp.com and in this case we will remove the photo immediately.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Crowd shots taken at events	Data subject's image, in case of video recordings, his/her voice and movement	Marketing	Legitimate interest - marketing (GDPR Article 6. (1) f)	Data subject	Data controller will provide information about the identity of the photographer/videographer as a data processor at the event and during preliminary information sessions Server provider as a data processor As the recordings are published on public platforms, therefore they become available to an unspecified number of recipients.	Until the end of the operation of the Data Controller or, if earlier, until the Data Subject's objection
Individual recordings made at the event	Data subject's image, in case of video recordings, his/her voice and movement	Marketing	Consent of the data subject - which can be given even through explicit suggestive behavior (GDPR Article 6. (1) a))	Data subject	Data controller will provide information about the identity of the photographer/videographer as a data processor at the event and during preliminary information sessions Server provider as a data processor	Until the end of the operation of the Data Controller or, if earlier, until the Data Subject's withdrawal of consent

					As the recordings are published on public platforms, therefore they become available to an unspecified number of recipients.

10. Data management related to the demo version of the Blue Colibri Application

In case of inquiries through the above channels, we will provide our prospective customers with access to the demo version of the Blue Colibri Application (hereinafter: the Application) for a maximum period of 4 weeks. Using the demo version, our prospective customers can learn about the operation of the Application with limited use, during which it is possible to post, organize a trial event and start a voting.

For posting, other users with demo access can see who posted and when. When organizing a trial event, other users with demo access can see who is organizing the event and who has signed up. When starting a voting, other users with demo access can see who posted the poll. The organizer cannot see who voted, only the result of the vote.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
In-app registration with demo access	Name E-mail address Username Password	Provide access to the demo version of Blue Colibri	Consent of the data subject (Article 6 (1) (a) of GDPR)	Data subject	Data processors recorded under section III./4.	Demo version for the right to use (up to 4 weeks)
Posting on the demo interface	Username Posting time Post content	Provide access to the demo version of Blue Colibri	Consent of the data subject (Article 6 (1) (a) of GDPR)	Data subject	Data processors recorded under section III./4. Other users with demo access	Demo version for the right to use (up to 4 weeks)
Creating a trial event on the demo interface	Username	Provide access to the demo version of Blue Colibri	Consent of the data subject (Article 6 (1) (a) of GDPR)	Data subject	Data processors recorded under section III./4.	Demo version for the right to use (up to 4 weeks)

					Other users with demo access	
Starting a voting on the demo interface	Organizer user name How and when to vote	Provide access to the demo version of Blue Colibri	Consent of the data subject (Article 6 (1) (a) of GDPR)	Data subject	Data processors recorded under section III./4. Other users with demo access	Demo version for the right to use (up to 4 weeks)

11. A test measuring the effectiveness of internal communication

The Visitor has the opportunity to test the effectiveness of his own communication system, which test consists of a series of questions, and based on the answers, it automatically generates an analysis of the effectiveness of internal communication, which is automatically sent to the Data subject's e-mail address. The link in the e-mail containing the evaluation navigates to the Data Controller's Contact Us form of communication, where the Data subject can contact the Data Controller directly if they have any questions. Completing the test is completely voluntary.

Description of data management	Scope of managed data	Purpose of data management	Legal basis of data management	Source of data	Recipients of data management	Duration of data storage
Test measuring the effectiveness of internal communication	e-mail address last name first name answers to questions company name how many people works at the company position in the company	Marketing	Consent of the data subject (Article 6 (1) (a) of GDPR)	Data subject	Questionnaire software provider as data processor Server provider as a data processor Mail service provider as data processor	60 days after the results are sent, or if earlier, until the consent is withdrawn

12. Data management related to the use of cookies

Our website uses cookies to ensure its proper operation, basic and convenient functions for marketing purposes, and to generate anonymous statistics.

A cookie is a file (information packet) that is placed on a device used for browsing when a person visits a website. The use of cookies makes it possible to query certain data of the visitor and to record his / her Internet usage habits. In general, cookies can facilitate the use of a website, help the website to provide relevant information to the data subject, and provide the website operators with control over the operation of the website (for example to prevent abuse and to ensure the proper provision of the services available on the website).

Third-party cookies are also displayed on our website. In the case of cookies used by third parties, the third parties identified in the table in this document are considered data controllers. Our Company, as the Data Controller, has only a limited influence on cookies from third parties, such data processing is governed by the data management policy of the third party. You can find information about the Google Analytics cookie application at the following link: <https://developers.google.com/analytics/devguides/collection/analyticsjs/cookie-usage>. You can access Google's privacy policy at the following link: <https://policies.google.com/privacy?hl=hu&gl=hu>

The data of cookies provided by third parties may be transmitted to these service providers if this is not prohibited by your browser settings. The data transmitted will be used by these third-party service providers as independent data controllers for their own purposes. If you do not wish to allow the transfer of your data, you can disable it by downloading and installing a browser module at <https://tools.google.com/dlpage/gaoptout?hl=en>.

By accessing the website www.bluecolibriapp.com, if the browser settings used by the Visitor allow it or this is explicitly approved by the Visitor on the first visit to the website, the website may automatically save information using these cookies. Enabling the use of cookies is voluntary. Cookies can usually be disabled in the browser's Tools/Settings menu, under Privacy, and/or under the Cookies menu.

By consenting to the use of Cookies during the first use of our website and by using the website, you accept the use of cookies in accordance with this cookie policy notice, which means that you accept the use of cookies placed by third parties for the purposes and conditions detailed below. If you do not accept the cookies or want to restrict them in part, please disable them by changing your browser settings so that the cookies on the website cannot be placed on your computer.

This cookie information is to be read in conjunction with our Privacy Policy, which contains detailed information about the identity and contact details of the data controller and the rights of the data subjects, which is also available on our website here.

You can find information about the cookie settings of the most popular browsers at the following links:

Our website uses the following cookies:

a. Definitely necessary cookies:

These cookies provide functions without which the Website does not function properly, the use of these cookies is absolutely necessary, the legal basis of the related data management is the legitimate interest of the Data Controller in the proper provision of the Website.

Own cookies:

Name of the cookie	Cookie provider	Data handled by the cookies	Purpose of the cookie	Duration of data management
-	-	-	-	-

b. Function and performance cookies:

These cookies collect data about visitors to the Website anonymously, using a customer identification code randomly generated by the cookie, for statistical purposes. These cookies allow us to monitor and improve the performance of our website, for example, to track the number of visits, identify the source of traffic and the most popular parts of the website, and allow the website to remember your choices (such as username, language). Based on the data, the Data Controller is not able to identify the Data Subject and

does not take steps to identify the Data Subject. The Data Controller receives information about the website traffic and other data for statistical purposes and thus has the opportunity to develop the website and increase its security, furthermore, to identify companies interested in its services, and to optimize sales-related measures.. No behavioral preferences are collected, and no automated decision-making is made on the basis of this, and the Data Controller does not send personalized offers to users based on this.

_hjFirstSeen	hotjar.com	Stores a true/false value indicating whether Hotjar first saw this user.	Identifying a new visitor's first session	1 hour
hjSessionUser*	hotjar.com	These cookies belong to Hotjar and store information about individual user sessions, such as visitor interactions and behaviour on the site.	Hotjar sets this cookie so that data from subsequent visits to the same website will be associated with the same user ID, which will be retained in Hotjar's user ID that is unique to that website.	1 year
_hjIncludedInSessionSample_3541684		Not known	Not known	1 hour
ga*	analytics.google.com		Storing and counting page views	1 year
VISITOR_PRIVACY_METADATA	youtube.com	Not known	Not known	6 months
optiMonkEmbedded205002	optimonk.hu	Not known	Not known	1 year
CONSENT	youtube.com	This cookie is linked to YouTube and stores the identifiers of the user's devices on which the user is logged into their YouTube account.	Stores anonymous statistical data	2 years
D41ID	d41.co	Visitor's IP address	Identifying and tracking website visits by corporate visitors	1 year (if the visitor does not have a DUNS number, only during the session)

c. Marketing cookies:

The purpose of using marketing cookies is to select the ads that are most interesting or relevant to our visitors and display them on our website. The legal basis for data management is the consent of the Data Subject, which he or she can make in the pop-up cookie window during the first visit to the site.

Third party cookies:

Name of the cookie	Cookie provider	Data handled by the cookies	Purpose of the cookie	Duration of data management
hubspotutk	www.bluecolibriapp.com	Not known	Store and track visitor identity	13 months
__hstc	www.hubspot.com	Not known	Store visit time	13 months
GPS	www.youtube.com	Location data	Store location data	During session
_fbp	www.facebook.com	Not known	Store and track visits to websites	3 months
test_cookie	.doubleclick.net	This cookie is linked to DoubleClick and is used to manage cookies with an identifier in Google's advertising network.	Checks the cookie support of the visitor's browser	15 minutes
optiMonkSession	optimonk.hu	Start date of session	Show pop-up notifications	During session
yt-remote-device-id	youtube.com		Storage of the cookie user's video references to embedded YouTube videos	1 year
yt-remote-connected-devices	youtube.com	This cookie is linked to YouTube and stores the identifiers of the user's devices on which the user is logged into their YouTube account.	Storing a visitor's video links to embedded YouTube videos	1 day

INFORMATION ON THE RIGHTS OF DATA SUBJECTS

In connection with the present data management, the User has the following rights:

1. **Right of access to personal data:** The data subject has the right to receive feedback from the Data Controller as to whether the processing of his or her personal data is in progress and, if such data processing is in progress, he or she has the right to access the personal data and information specified by law. Based on this, the Data Subject has the right to contact the Data Controller and request information on the processing of his / her data, as well as to request access to his / her data.

2. **Right to rectify data:** In the event of a change in your data, the data subject may at any time request the correction of his or her data by providing the correct data.
3. **Right to delete data:** The data subject has the right to request the Data Controller to delete his / her data if the data processing is no longer necessary for the purpose for which the data were recorded, if the data processing is illegal or if the deletion of the data is required by law.
4. **Right to restrict data processing:** The data subject may request a restriction on the data processing if the data processing is illegal if the data controller no longer needs the data for the purpose of data processing, but the data subject wishes to use them to submit a legal claim. Restrictions on data processing mean that the data may only be stored until the restriction is lifted and can only be used to make a legal claim.
5. **Right to object to data processing:** The data subject has the right to object to the processing of his or her personal data at any time for reasons related to his or her own situation. In such a case, the Data Controller shall individually examine whether there is a legitimate reason justifying the need for data processing.
6. **Right to data portability:** The data subject has the right to receive from the Data Controller the personal data processed by him or her in a structured, widely used machine-readable format and to transfer this data to another data controller without being hindered by the Data Controller. When exercising the right to data portability, the data subject shall have the right, if technically feasible, to request the direct transfer of personal data between data controllers.
7. **Right to lodge a complaint with a supervisory authority:** The data subject has the right to lodge a complaint with the Hungarian National Authority for Data Protection and Freedom of Information. (Address: H-1055 9-11 Falk Miksa Street, Budapest, H-1363 Budapest, PO BOX 9)
8. **Judicial enforcement:** The data subject has the right to apply to a court if, in his or her opinion, the Data Controller or a data processor acting on his or her behalf or at his or her disposal handles the data of data subject in violation of the regulations on the processing of personal data.
9. **Right to withdraw consent:** The data subject can withdraw given consent at any time. The withdrawal of consent shall not affect the lawfulness of processing based on consent before withdrawal.

VI. DATA SECURITY

The data controller ensures the security of the data. To this end, it shall take the technical and organizational measures and shall establish the procedural rules necessary to enforce the applicable laws, data and confidentiality rules. The data controller shall take appropriate measures to protect the data against unauthorized access, alteration, transmission, disclosure, deletion, or destruction, as well as against accidental destruction and damage, and from becoming inaccessible due to changes in the technology used. The Data Controller (also) ensures the enforcement of the data security rules by means of internal regulations, instructions, and procedures separate from the present Policy. When defining and applying data security measures, the Controller shall take into account the technology development level and shall choose from a number of possible data management solutions which ensure a higher level of protection of personal data, unless this would be a disproportionate difficulty.

The fact of automated decision making, profiling

Please note that we do not use automated decision-making or profiling.

If you have any questions about the handling of your personal information, please contact us at hello@bluecolibriapp.com.
