***What's your Academy Model? Interactive**

- North star
- Common challenges
- Sustainability

This interactive session leverages the experience of advanced communities in looking for answers that benefit all. What are we working toward? What challenges have we encountered? How can we ensure sustainability of our model?

***Teaming best practices**

- Explore overcoming challenges with and for our students
- Learn about increasing the intentionality and impact of our interventions
- Understand how a team lead can impact the decisions and culture of your team

***Marketing your academies/ student pipelines PreK-12**

- Recognize the ways in which your academy schools can market their opportunities
- Explore practices and events that build student interest in lower grades
- Consider your school branding

***Pathways changes and updates**

- Explore the criteria utilized in decisions that retire student pathways or create new ones
- Consider how your schools and community can work together on pathway updates

***School Site Visit**

- Spend time in an Academies of Nashville school
- Hear from school leaders, educators and partners
- Interact with student ambassadors

***What's Next for Career Academies? Interactive**

- How do Nashville's goals align with your goals?
- What does the future of the model look like?

This interactive session leverages the experience of advanced communities in looking for answers that benefit all. What are our goals and how do they compare to others? What do we all want the future of academies to look like?
